Growth Rate: Fast
Soil: Clay, loam, sand
pH: Acid, alkaline
Drainage: Well drained
Drought: Tolerant

'Summer Wine'® Ninebark is lovely as a shrub, and exceptional in tree form. It has a fine texture and compact branching as well as the dark wine foliage of P. Diablo®. It is smaller than other Ninebark selections. It's fast growing and has few pest or disease problems. In spring button shaped pink to white blooms appear. The flowers against the dark foliage is lovely. What can we say. Move over 'Diablo'® Robinson Nursery offers 'Summer Wine'® in various sizes of bare root shrubs & trees.
