

Prunus cerasifera 'Crimoizam' - Crimson Pointe Flowering Plum

Zone: 4-8

Height: 20'

Width: 5'-6'

Exposure: Full sun
Crown: Columnar
Growth: Moderate
Soil: Adaptable
pH: Neutral to acid
Drainage: Moist, but well drained
Drought: Tolerant once established
Breakage: Little or none

'Crimson Pointe'[™] is a selection of Newport Plum, chosen for its very columnar form. It flowers profusely with white single flowers in spring. Deep purple fruit follows. The foliage is merlot burgundy with orange/bronze new growth. It is a uniform grower with a strong central leader, making it easier to grow. 'Crimson Pointe' is striking as a specimen or as a street tree.
