

## **Styrax obassia - Fragrant Snowbell**

Zone: 6-8

Height: 20'-30'

Width: 15'-20'

Exposure: Full sun to shade  
Crown: Pyramidal  
Growth: Moderate  
Soil: Humus rich Loamy clay, sand, silt  
pH: Neutral to acid  
Drainage: Moist, well drained  
Drought: Moderate tolerance  
Breakage: Resistant  
Pests: None  
Disease: None

This is a very pleasant small tree, with dark green foliage during summer and a yellow fall color. In spring, white, fragrant bell-like flowers dangle under the foliage. Light green fruit follows in fall, and is not messy. This is a well behaved tree used for the patio or back yard.
