

Robinson Nursery Inc.

Wholesale Catalog Fall 2025-Spring 2026

Shade and Ornamental Tree Growers that have a passion for progress, & are inspired by ingenuity, trust Robinson Nursery. We prioritize continuous improvement & offer innovative products guaranteed to grow your success. We will never treat you like a number, the Robinson Nursery family is here to grow with you.

Dear Customers and Friends,

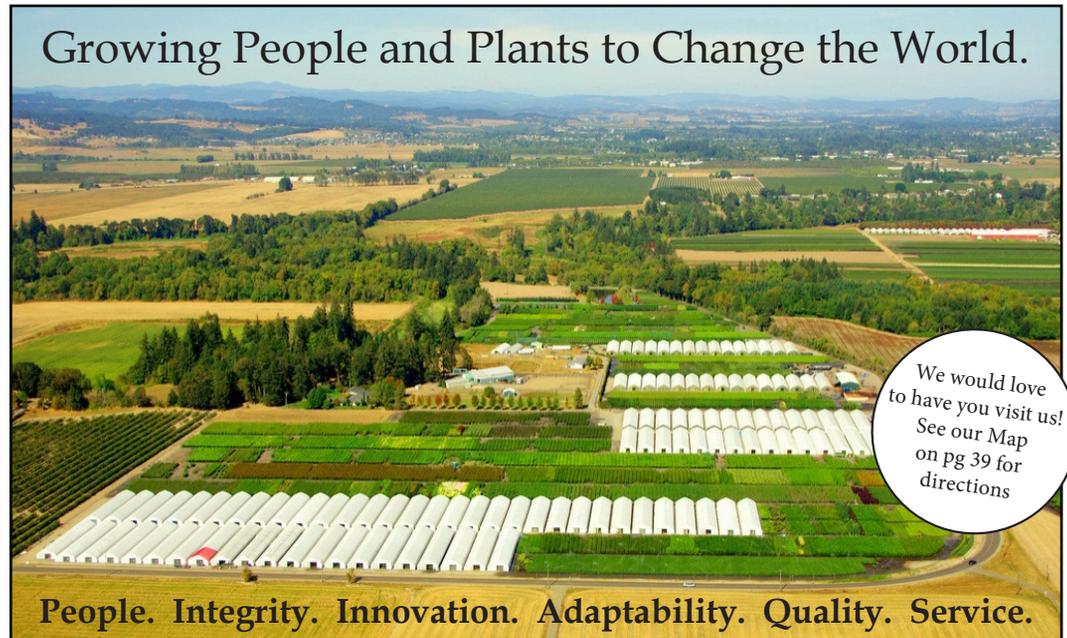

Adaptability is one of our core values at Robinson Nursery. In an industry where change is constant, the ability to pivot is essential. The more quickly we adapt, the stronger we become.

This year, I've been deeply impressed by our team's remarkable resilience and adaptability. We faced the loss of our long-time friend and colleague, Marion Hageman, along with the departure of several other dedicated team members. Despite these challenges, our team not only persevered, they put the spirit and values of Robinson Nursery into action. I am incredibly proud of what our team accomplishes each day.

Thank you for trusting us with your liner needs. We look forward to many more years of partnership and growth together.

May God continue to bless you, your families, and your businesses.

Chris and The Robinson Family

We are continually striving for the ultimate root system. It is our vision to create a liner that will stand the test of time. Circling and girdling roots are one of the leading causes of plant death in the landscape. Our exclusive line of Grow Ready Liners™ allow you to plant difficult to transplant varieties with confidence.

We look forward to hearing your success stories. Your feedback has been instrumental in our continued improvement. We are so grateful for our awesome team and our amazing customers. We look forward to further growing your expectations. Reach out with any questions you may have, we are here for you.

The specific GRL™ sizes offered are labeled as GRL™ in the size column. If GRL™ is not specified in the size name, it is a bareroot plant.

In this catalog, varieties with available in GRL™ sizes will also display the GRL™ logo in the plant description.

We grow our seedlings in root pruning containers from day one. The GRL™ Air Root-pruning Step up program promotes a fibrous root system that will help you transplant with ease. The Grow Ready Liner™ Insert is our latest innovation that ensures a healthy plant that will root out and establish more quickly.

Hazelnut shell mulch reduces the need for herbicides resulting in accelerated root growth and enhanced tree caliper.

The image on the left was grown in a standard pruning container. The image on the right is a GRL™ grown with our air root-pruning container and a GRL™ Insert.

Grow Ready Liner™ Insert

Bigger. Healthier. Faster.

This porous, light-weight fabric insert elevates our GRL™ product line to the next level. The Grow Ready Liner™ Insert is placed in our air-root-pruning container at planting. Roots can easily grow through this fabric and still be air-root-pruned by the container. Removal of the insert prior to planting provides a fresh prune.

We are eliminating circling roots that may cause the tree to girdle later in life and providing you with a tree that is ready to perform!

There are many additional proven benefits to be found with the GRL™ Insert. A few of our favorite include:

- We are using approximately 40% less water. The new system retains moisture, allowing the plant to grow more consistently since it has the water it needs when it needs it.
- We are experiencing a much more efficient use of fertilizer with significantly less run-off.
- The fabric helps keep the root system warmer in the winter and cooler in the summer. The temperature control is producing excellent new growth in Spring.

How will my product be shipped?

Product will be shipped in a GRL™ Insert. We recycle our plastic containers. This helps the environment and helps lighten your load, saving you money on shipping charges.

The insert's design includes fabric long enough to roll over the sides of the container. When the container is removed, the extra fabric serves as additional protection during the shipping process. Due to the fact roots grow through this innovative fabric, the integrity of the root system stays intact.

Does this increase cost?

No. There is no additional cost to the customer. The labor saved by eliminating the netting process, offsets the added cost of the GRL™ Inserts. No netting also means lower lead times for customers' orders being pulled.

Can I plant the Insert?

No. We are currently in research and development on a biodegradable insert. However, at this time, removing the Insert prior to planting is required.

Scan the QR Code for a video demonstration on Insert removal.

**Betula jacquemontii - Whitebarked Himalayan Birch**GRL™
5 Stem

Zone (4-7) Height: 40' Spread: 20'

29.80

Prized for its distinctive white bark which makes it a welcome addition in winter. Does best in full sun, but will tolerate light shade.

Betula Hybrids

GRL™
5 Stem**Avalanche™**

Betula x 'Avalzam'

44.00

Zone (4-7) Height: 50' Spread: 30'-40' Royalty: \$2.80

Bark starts out tan, takes on pink tones and then turns bright white. Neat emerald green leaves develop golden fall color. Durability that withstands challenging conditions and resists bronze birch borer. Imported from Japan by Ohio's renown Storrs & Harrison Company in the mid-late 1800s.

**'Royal Frost'**

36.80

Zone (3-6) Height: 30'-40' Spread: 15'-20'

An upright pyramidal birch featuring burgundy-red to purple foliage, showy yellow-orange to red fall color and attractive white bark. It is a cross between Betula populifolia 'Whitespire' (white bark) and Betula 'Crimson Frost' (purple foliage). 'Royal Frost' does best in cool northern climates.

Betula nigra - River Birch

GRL™
Tree
FormGRL™
5 Stem

Zone (3b-9) Height: 45' Spread: 30'

29.80

Beautiful multi-colored exfoliating bark. Dark green leaves with gold fall color. Borer resistant. GRL™ are five stem clumps.

**Dura-Heat®**

'BNMTF'

29.80

Zone (4-9) Height: 40' Spread: 30' Royalty: \$1.08

An oval to pyramidal tree with white exfoliating bark. Good tree for hot and humid climates. Clean, shiny leaves. Resistant to aphid and borer. GRL™ are five stem clumps.

**Fox Valley®**

'Little King'

29.80

Zone (4-9) Height: 8'-10' Spread: 8'-10' Royalty: \$1.00

A handsome, dense, compact, multi-stemmed cultivar with an irregular crown. Orangish to brownish bark exfoliates at an early age. Excellent pest and disease resistance, and heat tolerance.

**Heritage®**

'Cully'

29.80

29.80

Zone (4-9) Height: 45' Spread: 35' Royalty: \$.75

Superior form of river birch. Glossy green leaves with creamy orange and white exfoliating bark. Resistant to Bronze Birch Borer. From tissue culture.

**Northern Tribute®**

'Dickinson (RFM-43)'

29.80

Zone (3-9) Height: 35' Spread: 30' Royalty: \$1.00

Upright rounded habit with ivory bark exfoliating to copper-bronze. Superior adaptability to stresses of the Upper Midwest and Northern Plains. No signs of winter injury or iron chlorosis in alkaline soils. Has performed well in compacted, dry soils, which is extremely atypical of the species.

Betula papyrifera

GRL™
5 Stem

Renaissance Oasis® 'OENCI'

36.80

Zone (3-7) Height: 60' Spread: 30' Royalty: \$.75

Broad, dense, pyramidal form, with drought tolerance. Bark is a rich mahogany-reddish color turning bright white and exfoliates. Leaves are dark green, turning yellow in fall. adaptable a wide range of soil types. A selection from test plots containing hybrids of known bronze birch borer resistant parents.

<p>Being bred from parents canadensis x texensis makes this redbud drought and heat tolerant. It holds a glossy wine-red leaf color through the heat of summer. It has a tighter denser habit than 'Forest Pansy'.</p>											
Midnight Express™	'RNI-RCC3'				54.30	48.40	41.90	36.50	34.00	27.90	22.10
Zone (5-9)	Height: 20'-30'	Spread: 10'-20'	Royalty: \$2.80		New Size	New Size	New Size				
<p>With its velvety, deep burgundy foliage, this redbud beautifies your landscape well beyond bloom time! Enjoy the bright pink, pea-shaped spring blooms of redbud with the bonus of healthy, richly colorful foliage and an appealing rounded shape.</p>											
Northern Herald®	'Pink Trim'	NEW 25-26			36.20	42.20		54.30	48.40	41.90	
Zone (3-8)	Height: 15'-20'	Spread: 20'-30'	Royalty: \$.80		New Size	New Size		New Size	New Size	New Size	
<p>This dense, round-headed tree produces a profusion of pink flowers in spring. The green, leathery leaves are heat resistant with yellow fall color. Fruit is markedly reduced from the species norm. Collaboratively released by North Dakota State University and Greg Morgenson</p>											
											
Northern Lites™	'WFHnoli'					48.40	41.90				
Zone (5)	Height: 20'	Spread: 25'	Royalty: \$1.00								
<p>Bright hot pink flowers adorn the branches of this very hardy redbud. Has withstood temperatures to -29 with no injury to growth or flower buds. Dark green summer foliage turns a warm shade of yellow in autumn. Selected by Ohio plantsman Bill Hendricks of Klyn Nurseries.</p>											
'Oklahoma'	Cercis can. var. texensis				54.30	48.40	41.90				
Zone (6-9)	Height: 12'-18'	Spread: 15'-24'									
<p>Darker and brighter wine-red buds and flowers with darker green leaves. Typically shrubbier, more compact form than the straight species.</p>											
Rising Sun™	'JNJ'	NEW 25-26									
Zone (4-8)	Height: 8'-12'	Spread: 8'-12'	Royalty: \$2.00	PP21,451							
<p>Abundant pea-like, rosy pink flowers appear in early spring before the foliage. Heart-shaped foliage emerges deep golden orange and matures through shades of orange, gold and yellow to a speckled lime green. New leaves appear throughout the summer, resulting in a continual mix of colors. Fall foliage is yellow and orange. Reputed to be heat and drought tolerant.</p>											
											

Cercis canadensis - Eastern Redbud (continued)

1"br 6'br 5'br

'Royal White'	Whitebud	NEW 25-26	54.30	48.40	41.90
Zone (4-9)	Height: 20'-30'	Spread: 25'-30'	New Size	New Size	New Size
<p>'Royal White' is hardy and produces extra large white flowers. A more compact tree than 'Alba'; it blooms earlier and is more floriferous. The pea-like flowers appear on bare branches in March-April before the foliage emerges.</p>					

Cercis canadensis - Weeping Redbud

GRL™ Hvy #1

Golden Falls®	'NC2015-12'		36.20		
Zone (5-9)	Height: 20'	Spread: 15'	Royalty: \$2.95		
<p>The first ever gold-leaved weeping Cercis. Lavender-pink flowers in Spring, followed by large orange-edged leaves that age to a bright golden yellow. The narrow, gracefully weeping form and slow growth rate are perfect for a small-space specimen or for a grouping to create a lovely privacy screen.</p>					
					
Lavender Twist®	'Covey'			62.90	56.60
Zone (6-9)	Height: 20'	Spread: 15'	Royalty \$1.00 PP10,328		
<p>Graceful weeping form. Deep pink flowers emerge before foliage. Very thick dark green leaves. Budded at base. Undercut available at additional cost.</p>					
'Ruby Falls'				62.90	56.60
Zone (5-9)	Height: 6'	Spread: 4'	Royalty \$2.75 PP22,097		
<p>An attractive weeping purple leaf redbud, bred from parents 'Covey' x 'Forest Pansy'. Compact form with reddish-purple flowers makes for an elegant landscape addition.</p>					
'Vanilla Twist'				62.90	56.60
Zone (5-9)	Height: 12'	Spread: 8'	Royalty \$1.50 PP22,744		
<p>Weeping white flowered Cercis. Hardy hybrid between 'Lavender Twist' and 'Royal White'.</p>					

**Chionanthus retusus - Chinese Fringe Tree**

GRL™ Prem GRL™

Zone (5-8)	Height: 20'	Spread: 18'	42.70	36.70
<p>Pure white, fragrant flowers cover outside of tree. Yellow fall color. Round vase shaped. Moderate drought tolerance. Pest free and disease free.</p>				
				

Cladrastis kentukea - American Yellowwood

GRL™ Prem GRL™

Zone (4-9)	Height: 40'	Spread: 50'	42.80	36.80
<p>Excellent medium sized shade tree with rounded crown. Fragrant white flowers in May and June. Bright green summer foliage, yellow fall color.</p>				
				

Cornus alternifolia - Pagoda Dogwood

GRL™ Prem GRL™

Zone (3-7) Height: 15'-20' Spread: 20'-25' 
 A great small ornamental tree with excellent horizontal branching and white flowers. Requires moist but well drained soils.

38.40 32.40
 Limited quantities

Cornus kousa chinensis - Chinese Dogwood

GRL™ GRL™ Shrub Form

Zone (5-8) Height: 20' Spread: 20'
 Small vase-shaped tree with white star-shaped flowers in June. Bright red strawberry-like fruit in fall and red fall color.

32.40 26.60

Corylus colurna - Turkish Filbert

GRL™ Prem GRL™

Zone (4) Height: 40' Spread: 20'
 An excellent tree for the landscape or urban setting. Slow to moderate growth. Adaptable to a wide range of growing conditions. Very drought tolerant once established. The fruit, which matures in the fall, is a great way to attract wildlife.

45.60 39.60

Crataegus crus-galli var. inermis - Thornless Cockspur

1"br 6'br 5'br

Crusader® 'Cruzam'
 Zone (4-7) Height: 25' Spread: 30' Royalty: \$2.50
 An urban tough tree that bears abundant white clustered flowers in summer followed by small red fruit that persists into the fall and winter. Dark green glossy leaves change to red-orange in fall. Drought and disease resistant, pH tolerant and thornless.

39.00 34.60 28.40
 UC UC UC

Crataegus viridis - Green Hawthorn

1"br 6'br 5'br

'Winter King'
 Zone (4-7) Height: 20' Spread: 40'
 A popular tree with 4 season appeal: white flowers in spring, glossy green foliage in summer, nice yellow fall color and persistent red fruit in winter.

39.60 34.60 28.40
 UC UC UC

Gleditsia triacanthos - Thornless Honeylocust

8'wh 7'wh 6'wh 5'wh 4'wh

Imperial® G.t. inermis 'Impcole'
 Zone (4-9) Height: 35' Spread: 35' Royalty: \$.75
 An excellent selection for those limited by size constraints. Graceful spreading branches at right angles to main trunk. Drought tolerant. Yellow fall color.

31.00 28.20 24.40 22.20 18.10

Northern Acclaim® G.t. inermis 'Harve'
 Zone (3-6) Height: 40-50 Spread: 30-35 Royalty: \$.70
 A thornless, seedless variety with great winter hardiness. Pyramidal to upright; habit that widens with age. Bright Green in the summer and golden yellow in the fall with minimal leaf litter. Urban and drought tolerant. Resistant to canker disease. Introduced by North Dakota State University.

31.00 28.20 24.40 22.20 18.10

Cornus alternifolia roots

Northern Acclaim®

Little Lime®

Hydrangea paniculata - Tree Hydrangea (continued)

36" GRL™ 30" GRL™

Pinky Winky Prime® 'ILVOHPPRM' **NEW 25-26**
 Zone (3-8) Height: 6'-9' Spread: 6'-9' Royalty \$2.70 PP35,334
 Truly massive blooms on a big, hearty habit. Adaptable to many soils, moderate moisture required. Blooms summer/fall regardless of climate, soil, pH or pruning. Prefers good, loamy soil. Salt tolerant. Fall interest.

41.10 41.10
 New Size New Size

Quick Fire® 'Bulk'
 Zone (3-8) Height: 6'-8' Spread: 6'-8' Royalty \$2.45 PP16,812
 All the features of Quick Fire® but adds big, full, showy mophead blooms to the mix. Unique X-shaped flowers go from white to pink to bright pink to deep red through the season. Strong, sturdy stems keep blooms clean, upright, and showy all year round Quick and easy to grow.

41.10 41.10

Quick Fire Fab® 'SMNHPM'
 Zone (3-8) Height: 6'-8' Spread: 5'-6' Royalty \$2.70 PP32,513
 Blooms about a month before other Hydrangea pan. Flowers are pink, turning a dark, rosy pink in the fall. The flower color is not affected by soil pH. Flowers on new wood. Quick and easy to grow.

41.10

Vanilla Strawberry™ 'Rehny' First Editions®
 Zone (4-6) Height: 6'-8' Spread: 4'-6' Royalty: \$1.40 PP20,670
 The flowers begin creamy white midsummer, turn pink and then strawberry red later in the season. Since new flower heads continue to open into late summer, plants may display all three color stages at any one time. Blooms are borne on red stems, making quite a contrast against the green leaves.

36.50 36.50

Quick Fire®

Koelreuteria paniculata - Goldenrain Tree

GRL™

Zone (4-8) Height: 30'-40' Spread: 20'-30'
 Sprays of yellow flowers in summer, followed by fruit that are air-filled capsules resembling paper lanterns. Tolerant of heat, drought, adverse soils, wind and ozone. Very ornamental.

31.00

Liquidambar styraciflua - Sweetgum

GRL™ #7 GRL™

Happidaze® 'Hapdell'
 Zone (5-9) Height: 80' Spread: 40' Royalty: \$.90
 Outstanding, even in youth. Heavy crown of deep green, lustrous leaves with well spaced branching. Deep maroon in autumn. Nearly seedless.

34.60

'Slender Silhouette' **Exclamation Point Sweetgum**
 Zone (4-9) Height: 60' Spread: 6' PP17,345
 Twenty feet by two feet in twelve years. This is the narrowest plant we grow. Fast, problem free, deep burgundy fall color, a stunning architectural statement!

61.40 34.60

'Slender Silhouette'

Liquidambar styraciflua - Sweetgum (continued)

GRL™

'Worplesdon'

Zone (4-9) Height: 45' Spread: 25'

Broadly pyramidal form. Elegant dark green leaves turn orange/red/ burgundy in fall. Recorded to withstand below -25°F temperatures with no damage.

34.60

Liriodendron tulipifera - Tulip Poplar

GRL™

GRL™

GRL™

#7

Prem

Zone (5-9) Height: 70' Spread: 45'

Stately large shade tree, "cat paw" leaves, golden yellow fall color. Large and lovely bloom but difficult to see on tree.

61.40

37.30

31.30

Maclura pomifera - Osage Orange

GRL™

'White Shield'

Zone (5) Height: 35' Spread: 35'

Fruitless and thornless. Midwest native. Heat and drought tolerant. Glossy dark green foliage. Bark has interesting orange cast. Fast grower.

34.60

Magnolia

GRL™

GRL™

Tree Form

Shrub Form

'Ann'

M. liliiflora 'Nigra' x M. stellata 'Rosea'

Zone (4-8) Height: 10'-12' Spread: 10'-12'

Compact habit, slightly fragrant, purple-red, chalice-shaped flowers. A late bloom (mid-April to early May) thus reducing potential damage to flowers from late spring frosts. Ovate medium green leaves, turn yellow in fall.

31.80

'Galaxy'

M. liliiflora 'Nigra' x M. sprengeri 'Diva'

Zone (5-9) Height: 20'-30' Spread: 10'-15'

Large, narrow-pyramidal, single trunk tree with ascending branching. Fragrant rose-pink to reddish-purple flowers bloom in late April to early June. Each flower features up to 12 showy petal-like tepals. Large, ovate, medium green leaves appear in whorl-like clusters at the branchlet tips.

40.10

'Jane'

M. liliiflora 'Reflorescens' x M. stellata 'Waterlily'

Zone (4-8) Height: 20'-25' Spread: 15'-20'

Compact, upright habit. Large, cup-shaped, reddish-purple flowers with white interiors. A late bloom (mid-April to early May) reduces potential damage to flowers from late spring frosts. Ovate leaves emerge with copper-red tints in spring, turn dark green and finally acquire yellow to bronze-copper tones in fall.

40.10

31.80

'Leonard Messel'

Magnolia x loebneri

Zone (5-8) Height: 15'-20' Spread: 15'-20'

Fragrant pink, strap shaped flower is 4"-6" wide.

40.10

31.80

Liriodendron tulipifera

Magnolia 'Jane'

Magnolia (continued)

			GRL™ Tree Form	GRL™ Shrub Form				
'Merrill'	Magnolia x loebneri		40.10	31.80				
Zone (5-8)	Height: 20'	Spread: 20'						
This vigorous grower has white fragrant flowers with a blush of pink. Loosely pyramidal in form. This beautiful magnolia was developed at the Arnold Arboretum in Boston, MA.								
'Royal Star'	Magnolia stellata		40.10	31.80				
Zone (4-9)	Height: 15'	Spread: 20'						
Five inch white flowers in March before leaves appear.								

Magnolia virginiana - Sweetbay Magnolia

			GRL™ Tree Form	GRL™ Shrub Form				
Zone (5-10)	Height: 40'	Spread: 20'		31.80				
Upright tree, semi-evergreen in warmer areas. White lemon scented flowers from June to fall. Foliage has silvery under-leaf contrasts with bright green leaf top.								
Moonglow®	Mag. v. 'Jim Wilson'		40.10	31.80				
Zone (5-8)	Height: 15'-20'	Spread: 15'-20'	Royalty: \$.90	PP12,065				
Flowers on younger plants than species, more floriferous and more leaf contrast, red seeds emerge from pink fruit, then is taken by the birds, no mess.								

Malus - Ornamental Apple

			1"br	6"br	5"br	1"	7/8"	11/16"				
Emerald Spire™	'Jefgreen'	NEW 25-26				33.90	31.60	27.60				
Zone (2-7)	Height: 15'	Spread: 6'	Royalty: \$1.50	PP23,863								
A hardy, truly small tree; slow growing with a columnar compact form. Bright fuchsia colored buds open to pink flowers in the spring. Plentiful ornamental red fruit follows. Dark green to purple leaves have remarkable disease resistant turning yellow in the fall.												
Gladiator™	'Durleo'		33.90	31.60					27.60			
Zone (2-9)	Height: 20'	Spread: 9'	Royalty: \$1.70	PP20,167								
Bright pink flowers followed by small reddish-purple fruit on a stately, upright crown. Glossy bronze-purple leaves look lush all growing season long and have high disease resistance. Ideal tree for space-challenged sites including under power lines, as a small boulevard tree or planted in a row for a screen.												
'Prairifire'			33.90	31.60	27.60							
Zone (4)	Height: 20'	Spread: 20'										
The most popular ornamental apple on the market today. In spring, Pinkish-red buds open to slightly fragrant, deep pink-red flowers. Flowers are followed by masses of small, purplish-red crabapples, blood red persistent fruit which mature in the fall. Makes a canopy quickly. VIRUS CERTIFIED												

Malus - Ornamental Apple

1"br 6'br 5'br

'Purple Prince'

Zone (4) Height: 20' Spread: 20'

The best purple foliage on the market today. This small, fast growing tree boasts a stunning spectacle of color. In spring, rich red flowers are held along the branches followed by large maroon fruit. Excellent resistance to disease.

33.90 31.60 27.60

Red Jewel®**'Jewelcole'**

Zone (4) Height: 15' Spread: 12' Royalty: \$.75

Upright pyramidal form that stays relatively small. Attractive pink flower buds open to splendid white flowers. The persistent red fruit appears in late summer and lasts all winter long. Improved disease resistance.

33.90 31.60 27.60

Show Time™**'Shotizam'**

Zone (4-8) Height: 18' Spread: 15' Royalty: \$2.50

Foliage is green with burgundy cast. Outstanding fuchsia-red floral display. Red persistent fruit. Pyramidal form, hardy and vigorous, disease free.

33.90 31.60 27.60

Starlite®**Malus x 'Jeflite'**

Zone (2-8) Height: 10'-20' Spread: 10'-20' Royalty: \$1.00

A flowering crabapple hardy enough for the northern plains. White flowers bloom in May followed by small, shiny bright red fruit that persists into winter. Starlite™ has dark green, glossy, disease resistant foliage. Good for space challenged sites due to its upright branching habit.

33.90 31.60 27.60

'Spring Snow'

Zone (4) Height: 25' Spread: 22'

Small oval shaped tree with rose colored buds opening to pink petals, fading to pure white. Fruitless. We have experienced good scab resistance in Oregon.

VIRUS CERTIFIED

33.90 31.60 27.60

Sugar Tyme®**'Sutyzam'**

Zone (4) Height: 18' Spread: 15' Royalty: \$.80 PP7062

A vigorously growing upright oval tree. Pale pink buds open to fragrant white flowers. Fruit is yellow with a red blush. Good disease resistance. Upshoot 'Zam' Introduction

33.90 31.60 27.60

Sweet Sugar Tyme®**'Swesutyzam'**

Zone (4-8) Height: 10' Spread: 10' Royalty: \$2.50

Semi-dwarf, vigorous, upright oval tree. Pale pink buds open to fragrant white flowers. Fruit is red and lasts much longer than other crabapples. Good disease resistance. Upshoot 'Zam' Introduction

33.90 31.60 27.60

Malus - Ornamental Apple - Top Grafted

Hvy #1 #1lt

'Adirondack'

Zone (4) Height: 20' Width: 12'

Columnar form having white flowers with a tinge of red. Pink/Red fruit ripens to a deep orange-gold in Autumn. Disease resistant. Grafted on 42" standard.

44.20 39.90 32.20

Red Jewel®

Show Time™

'Adirondack'

Malus - Ornamental Apple - Top Grafted (continued)

Hvy #1 #1lt

Coralburst®

Zone (4) Height: 15' Width: 12' Royalty: \$.75 PP2983

Compact ornamental apple with pink buds opening to double rose flowers. Tiny bronze fruit. Excellent disease resistance. Grafted on 42" standard.

44.20 39.90 32.20

Lollipop®**'Lollizam'**

Zone (4-8) Height: 8' Width: 8' Royalty: \$2.50

Dwarf tree with compact, rounded head and green foliage. Spring bloomer, a single pink bud opening to a white flower. Grafted on 42" standard.

44.20 39.90 32.20

Sargent Tina**M. sargentii 'Tina'**

Zone (4) Height: 5'-7' Width: 12'

Dwarf, spreading ornamental apple grafted on 42" standard. Bright red buds open to white flowers and red fruit. Very disease resistant. Grafted on 42" standard.

44.20 39.90 32.20

'Weeping Tina'

Zone (4) Height: 6' Width: 8'

Light pink to white. Small red fruit. No scab, no rust. True weeping habit, forms into a bell shape. Grafted on 42" standard.

44.20 39.90 32.20

**Metasequoia glyptostroboides - Dawn Redwood**

GRL™ Prem GRL™

Zone (5a-8b) Height: 70'-90' Spread: 20'-30'

Deciduous conifer with soft fernlike green needles, yellow orange in fall. Upright pyramidal form; droopy branches. Prefers moist, well drained acidic soil. Reddish brown bark.

41.20 30.10

Amber Glow™**'WAH-08AG'**

Zone (6) Height: 30' Spread: 20' Royalty: \$1.80

A dense, pyramidal habit and mature to a more compact size than other gold foliated varieties. Bright golden foliage in the spring, gains an attractive orange color in the fall. The golden foliage holds up well in the heat and doesn't burn in full sun.

35.20

Nyssa sylvatica - Blackgum

GRL™ Prem GRL™

Zone (4-9) Height: 30'-50' Spread: 20'-30'

Pyramidal when young, dense horizontal branching. Lustrous green leaves become yellow/orange/scarlet in fall. Extremely fragrant flowers. Water lover but drought tolerant.

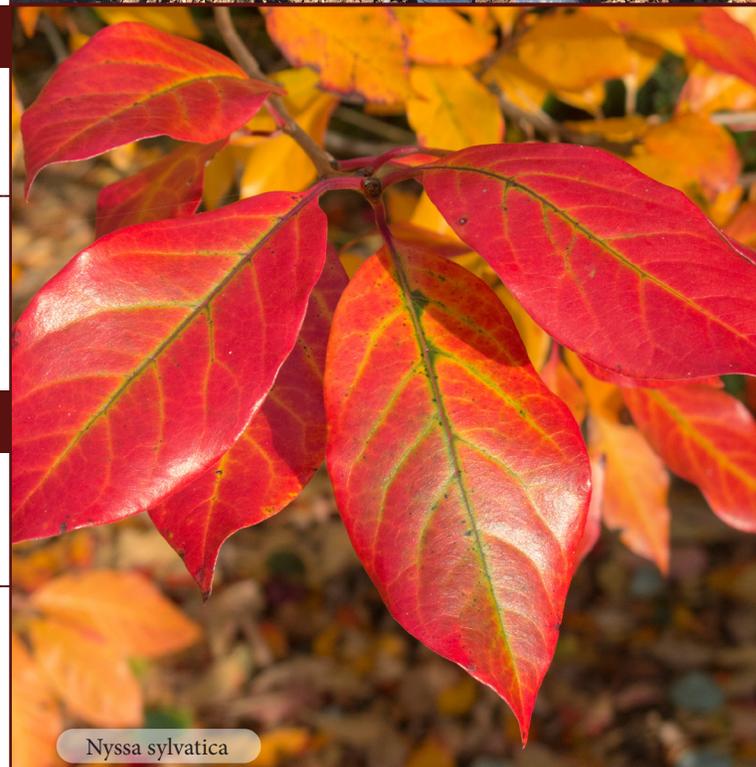

41.80 35.80

Fire Master™**'PRP1'****NEW 25-26**

Zone (4-9) Height: 50'-60' Spread: 20'-25' Royalty: \$1.75 PPAF

Upright, pyramidal branching and a strong central leader. New foliage growth is a bright red, turning dark green during summer and then fiery red in fall.

46.10 40.10
New Size New Size

Forest Fire™	'The James'				46.10	40.10
Zone (4-5)	Height: 50'	Spread: 25'	Royalty: \$1.75	PP29473		
A vigorous selection of native Black Gum that boasts an excellent branching habit when young, creating an early attractive silhouette. Glossy, medium green foliage explodes into fiery red in the fall.						
Green Gable™	'NSUHH'				46.10	40.10
Zone (4-9)	Height: 50'	Spread: 25'	Royalty: \$1.85	PP22,951		
Upright, pyramidal shape, that is unusual for Nyssa with uniform branching. Shiny green foliage. Classic eye catching brilliant red fall color.						
'Majestic'	'M.O.N. No. 2'				46.10	40.10
Zone (3-9)	Height: 40'	Spread: 20'	Royalty: \$1.00			
Upright Vase shape with dark, glossy, green foliage. An improved ornamental variety of an often underrated landscape tree. White flowers in the spring, excellent red-orange fall color, a nice specimen tree.						
Nitro™	'BBN-01'	NEW 25-26			46.10	40.10
Zone (4-9)	Height: 50'	Spread: 25'-30'	Royalty: \$1.75	PPAF	New Size	New Size
An excellent shade tree; hardy, easy to care for, & maintains a consistent shape. Large glossy red leaves appear as new growth in spring and transitions to a glossy green into summer with a wave of red reappearing in the fall.						
Northern Splendor™					46.10	40.10
Zone (4-9)	Height: 40'-50'	Spread: 20'-30'	Royalty: \$1.00			
One of our favorite Nyssa's out of Twin Lakes Nursery in Grand Rapids MI. Northern selection, with a deep dark green glossy leaf that turns to fire engine red in the fall. Broadly upright branching, goes dormant weeks earlier than other Nyssa.						
Tupelo Tower®					46.10	40.10
Zone (4-9)	Height: 30'-40'	Spread: 20'	Royalty: \$1.00			
Unique upright tree with strong vertical habit. Dark green leaves in summer; gold and orange in fall. Birds enjoy the small blue fruit. Useful as a street tree or upright specimen. Introduced by Klyn Nursery, Perry Ohio.						
'Wildfire'					46.10	40.10
Zone (4-9)	Height: 40'-50'	Spread: 20'				
This is an upright form with a strong central leader and bright red new growth. Bright red fall color. We are really excited about this one.						

Ostrya virginiana - Hophornbeam

GRL™
Prem

GRL™

Zone (3-9)	Height: 30'	Spread: 20'			42.80	36.80
Very graceful small tree with horizontal branching. No disease or insect problems. Drought tolerant and very hardy.						

Parrotia persica - Persian Ironwood				GRL™ Prem	GRL™											
Zone (5-8)	Height: 20'	Spread: 20'		42.20	36.20											
Round to vase shape, slow growing, drought tolerant, glossy leaves outrageous red, yellow and orange fall color. Everyone should have one!																
Golden BellTower™			'Chrishaven1'	NEW 25-26	42.20	36.20										
Zone (4-8)	Height: 25'-30'	Spread: 10'-12'	Royalty: \$1.00	PP 28584	New Size	New Size										
Consistent gold and apricot fall color and a superior habit, Golden BellTower™ maintains its columnar form as it ages. Holds up to urban soils and conditions. Perfect for low maintenance/no maintenance.																
Persian Spire™			'JLColumnar'		42.20	36.20										
Zone (5-8)	Height: 25'	Spread: 10'	Royalty: \$2.80	PP 24951												
A colorful upright specimen with an oval habit. . Refined foliage emerges purple and matures to green with purple margins. Fall color is orange, red, yellow and burgundy. It is bright and long lasting.																
'Vanessa'					42.20	36.20										
Zone (5-8)	Height: 25'-30'	Spread: 10'														
Very upright tree, new growth has bronze red color, leaves turn green, purple, then scarlet orange in fall.																

Platanus x acerifolia - London Planetree				GRL™ Prem	GRL™	1 1/4"	1"br	6'br	8'wh	7'wh	6'wh	5'wh				
'Bloodgood'									26.00	24.30	21.90	19.00				
Zone (4-8)	Height: 50'	Spread: 40'														
Broad spreading pyramidal tree with large maple-like leaves. Beautiful jigsaw puzzle bark. Thrives in tough urban conditions.																
Exclamation!™			'Morton Circle'	36.60	30.60	48.90	45.30	40.80	29.70	27.90	26.00	23.10				
Zone (4-8)	Height: 60'	Spread: 30'	Royalty: \$.60													
A hybrid selection from a controlled cross between P. orientalis (naturally anthracnose-resistant) and an anthracnose-resistant P. occidentalis parent. Selected for its uniform, upright-pyramidal habit, that is conical in its youth. Strong central leader and attractive foliage.																

Populus tremuloides - Quaking Aspen				GRL™ 5 stem	GRL™										
Zone (2)	Height: 40'-50'	Spread: 20'-25'			24.60										
A vigorous growing pyramidal tree with a wide spread native range. Leaves flutter in breeze. Golden yellow fall color.															
Summer Shimmer®			Populus trem. 'Select'	36.80	33.20										
Zone (2)	Height: 40'-50'	Spread: 20'	Royalty: \$1.40												
This quaking aspen from Klaus Nursery in Hastings MN was selected for its clean leaf throughout the year. It has a larger leaf, improved vigor, and has been noted to have drastically less suckering than other aspen.

Air Root-Pruning Step-Up Program

Did You Know...

At Robinson Nursery we are passionate about continuous improvement. We are always striving to create the best root systems for our customers.

We grow our seedlings in root-pruning containers from Day 1.

The Air Root-Pruning Step-Up Program promotes fibrous root systems that will help you transplant with ease.

--	-------	-------	-------	-------	-------	-------	-------	-------	-------

Quercus alba **White Oak**
 Zone (3-9) Height: 70' Spread: 70'
 One of the best shade trees with rounded form. Purple to red fall color.

	37.40	31.40							
--	-------	-------	--	--	--	--	--	--	--

Quercus alba on bicolor **White Oak**
 Zone (3-9) Height: 70' Spread: 70'
 One of the best shade trees with rounded form. Purple to red fall color. Budding on bicolor improves tolerance and transplant success.

	41.50	35.50							
--	-------	-------	--	--	--	--	--	--	--

Quercus bicolor **Swamp White Oak**
 Zone (4-8) Height: 50'-60' Spread: 50'
 Broad, open form with yellow to red fall color. Likes wet soils and at the same time is drought tolerant. Grows in alkaline soil. Very popular in today's market.

59.60	36.50	30.50	50.70	47.20	44.20	35.00	45.70	39.10	31.20
-------	-------	-------	-------	-------	-------	-------	-------	-------	-------

Quercus coccinea **Scarlet Oak**
 Zone (4-9) Height: 50'-70' Spread: 50'
 Broad, open form, with good red fall color. Densely foliaged, lots of acorns. For well drained acidic soil. Moderate drought resistance.

	36.50	30.50							
--	-------	-------	--	--	--	--	--	--	--

Quercus ellipsoidalis **Northern Pin Oak**
 Zone (3-7) Height: 50' Spread: 50'
 Pyramidal to oval form, red fall color. More tolerant of alkaline soil than Pin Oak. A good urban tree. It will take compacted soils and extended flooding.

NEW 25-26

		31.40							
		New Size							

Quercus imbricaria **Shingle Oak or Laurel Oak**
 Zone (5-8) Height: 50'-70' Spread: 50'-60'
 Upright oval in youth, becoming rounded and spreading with age. Urban tolerant and adaptable to a wide variety of soils. Shiny dark green foliage. Shingle oak is considered to be a low-maintenance tree with good pest resistance.

NEW 25-26

		31.40							
		New Size							

Quercus macrocarpa **Bur Oak**
 Zone (3-8) Height: 50' Spread: 40'
 Irregular open form. Dark green foliage with yellow fall color. Corky branch wings. All mature oaks are awe inspiring, but Bur Oak is especially moving.

	36.50	30.50

Quercus - Oak (continued)

Quercus - Oak (continued)		GRL™ #7	GRL™ Prem	GRL™	1"br	8'br	6'br	5'br	1"lt	6'lt	5'lt	
Quercus macrocarpa on bicolor	Bur Oak		40.50	34.50								
Zone (3-8)	Height: 50' Spread: 40'											
Irregular open form. Dark green foliage with yellow fall color. Corky branch wings. All mature oaks are awe inspiring, but Bur Oak is especially moving.												
Q. muhlenbergii on bicolor	Chinkapin Oak			35.50								
Zone (4-7)	Height: 40'-50' Spread: 50'-60'			New Size								
A large, broadly rounded oak. Urban tolerant, but make sure to provide space for roots and canopy. Prefers moist, well drained soils, but will tolerate dry, alkaline soils as well. Will not become chlorotic in high pH soils.												
Scarlet Letter™	Quercus x 'Scarlet Letter'		41.50	35.50	57.90	54.10	50.50	40.60	53.70	44.90	35.90	
Zone (3-7)	Height: 30'-40' Spread: 12'-15'		New Size	New Size	New Size	New Size	New Size	New Size	New Size	New Size	New Size	
Dense, columnar/narrow tree that tolerates drought, soil pH, and clay. Dark green, lobed leaves cover the canopy and mature into a lovely, rusty-red fall color. Compared to other oaks, you will see a faster growth rate, reliable cold hardiness, and resistance to storm and winter damage.												
Quercus shumardii	Shingle Oak or Laurel Oak			31.40								
Zone (5-9)	Height: 40'-60' Spread: 30'-40'			New Size								
Medium sized. Pyramidal in youth but spreads to a broad open crown with age. Typically grows at a moderately fast rate to a height of 40-60'. Shiny, dark green leaves with deep spiny lobes.												
Quercus palustris	Pin Oak		37.40	31.40								
Zone (4-8)	Height: 55' Spread: 40'											
Pyramidal form with horizontal branching; rounded with age. Tolerant of tough urban conditions, especially drought. Orange to red fall color. A good dependable grower. Does very well in warmer climates.												
Q. p. Green Pillar®	Q. palustris 'Pringreen'		41.50	35.50	57.40	54.10	50.50	40.60	53.70	44.90	35.90	
Zone (4-8)	Height: 60' Spread: 25' Royalty: \$.90											
A columnar oak from Princeton Nursery. Leaves are dark glossy green with good orange/red fall color.												
Quercus phellos	Willow Oak		37.40	31.40								
Zone (6-9)	Height: 60'-75' Spread: 40'-50'											
The name is derived from its lance-shaped leaves that resemble many of the willow species. Beautiful yellow fall color and is tolerant of wet soils.												
Quercus rubra	Red Oak		61.40	37.40	31.40	52.20	48.60	45.50	36.10	47.10	40.30	32.00
Zone (3-8)	Height: 60' Spread: 60'											
The king of oaks. Tall, stately, rounded symmetrical form. Vigorous grower with red fall color. Our seed source produces excellent trees with dominate leader and consistent straight growth. Seed source is upper peninsula of Michigan.												

Quercus - Oak (continued)

GRL™ GRL™ 1"br 8'br 6'br 5'br 1"lt 6'lt 5'lt
Prem

Quercus Heritage® **Q. robur x Q. macro. 'Clemons'**
Zone (4-8) Height: 70' Spread: 50' Royalty: \$1.00 PP11,431
Selected for outstanding vigor and form. Maintains a central leader and develops a dense, uniform pyramidal crown. Highly resistant to powdery mildew.

Quercus Kindred Spirit® **Q. robur x Q. bi. Hybrid Oak 'Nadler'**
Zone (3) Height: 35' Spread: 6' Royalty: \$2.00 PP17,604
An exciting new Earl Cully introduction. Q. robur fastigiata x Q. Bicolor parentage. Narrower than Q. Regal Prince® and with the same attributes. Very resistant to powdery mildew. Sure to be a best seller.

Quercus Regal Prince® **Q. robur fast. x Q. bicolor 'Long'**
Zone (4-8) Height: 60' Spread: 20' Royalty: \$1.00 PP12,673
A vigorous growing columnar tree. Dark green glossy foliage is silver on the underside. High resistance to powdery mildew and tolerant of wet soils and drought. The most "asked for" oak today!

**High PH soil?
Struggling with
Chlorosis?**

Each year we provide a small offering of Hybrid Oaks on Quercus macrocarpa rootstock. This increases the alkaline tolerance. To learn more, ask your sales rep about Kindred Spirit® and Regal Prince®

Salix integra - Willow

GRL™

'Hakuro Nishiki' **Dappled Willow**
Zone (3-7) Height: 6'-8' Spread: 6'-8'
In spring, new growth emerges pink and matures to attractive foliage variegated creamy white, pink and green. Top grafted on 42" standards.

'Flamingo' **Dappled Willow**
Zone (4-10) Height: 8'-10' Spread: 6'-8' PP17,490
Variegated foliage of pink, white and bright green. Foliage resists heat scorch. Shiny red stems add appeal even when bare in the winter landscape.. Top grafted on 42" standards.

Stewartia pseudocamellia

Stewartia pseudocamellia - Japanese Stewartia

GRL™

Zone (5) Height: 30' Spread: 15'-30'
Attractive ornamental tree with white flowers and exfoliating gray bark, nice fall colors.

Styrax japonicus - Japanese Snowbell

GRL™ GRL™
Prem

Zone (5-8) Height: 20' Spread: 30'
An exceptional small tree. Slightly fragrant white bell-shaped flowers are produced in May and June. Yellow fall color.

Starway to Heaven™ **'RNI-RIXRED'**
Zone (5-9) Height: 20'-30' Spread: 5'-8' Royalty: \$2.80 PP35,353
Deep green foliage emerges red. Fragrant, five-petalled flowers a galaxy of stars when it blooms in spring & again in fall. Narrow, space-saving habit Winner of the Best New Varieties Showcase & Retailer's Choice Award

Starway to Heaven™

Styrax japonicus - Japanese Snowbell (continued)

GRL™

Swan Song™	'ORSTSTYx1'	NEW 25-26	40.90				
Zone (5-9)	Height: 8'-12'	Spread: 4'-6'	Royalty: \$2.80	PPAF	New Size		
Graceful, narrow weeping habit. Lightly fragrant, soft pink, star-like flowers cover the branches in spring. Dramatic purple-black foliage beautifies spring through fall.							

Syringa meyeri - Dwarf Korean Lilac

36" gft GRL™ 24"ms 18"ms 15"ms 12"ms

Flowerfesta® Pink	'Anny2013-18'		46.10				
Zone (5b)	Height: 3'-5'	Spread: 3'-4'	Royalty: \$0.50	PP32,908			
This compact, winter hardy lilac produces an abundance of fragrant pink flowers in the spring, but then continues reblooming intermittently until the autumn.							

Flowerfesta® Purple	'Anny200809'		46.10				
Zone (3-7)	Height: 3'-5'	Spread: 3'-4'	Royalty: \$0.50	PP31,300			
Fragrant purple blossoms pack these panicles in early to mid-summer and then rebloom closer to fall. This compact, rounded, deciduous beauty is cold hardy and, once established, has good drought tolerance.							

Flowerfesta® White	'Anny2013-02'		46.10				
Zone (3-7)	Height: 3'-5'	Spread: 3'-4'	Royalty: \$0.50	PP33,117			
Pristine white blossoms sit atop light green foliage on this compact, fragrant rebloomer! Blooms in early summer and then again in the fall. Attractive, fragrant, cold hardy and drought tolerant!							

'Palibin'	Dwarf Korean Lilac		46.10	15.00	13.90	12.80	11.60

Ulmus americana - American Elm

GRL™ #7 GRL™ Prem GRL™

'Jefferson'

Ulmus americana

Zone (4-7) Height: 70' Spread: 50'

An American Elm that is highly resistant to DED. It is distinguished by its low spreading form with arching limbs and broad U-shaped branch unions.

31.00

'New Harmony'

Ulmus americana

Zone (4-9) Height: 70' Spread: 70'

A U.S. National Arboretum intro. This variety was selected for its tolerance to DED. Rapid growth once established. Broadly vase-shaped canopy. Tough urban tree.

31.00

'Princeton'

Ulmus americana

Zone (3a-9) Height: 75'-90' Spread: 50'-60'

Very disease resistant American Elm, some nearly 100 years old in New Jersey. Fast grower with vase shape crown, very large, stately tree; give room to grow.

61.40 37.00 31.00

'Valley Forge'

Ulmus americana

Zone (2-9) Height: to 90' Spread: 50'-70'

Disease resistant American Elm with a classic upright arching form. Extremely vigorous; long lived (300 years). The 'best' tree for urban conditions.

37.00 31.00

Ulmus parvifolia and Hybrids

GRL™ #7 GRL™ Prem GRL™

Allee®

U. parvifolia 'Emer II'

Zone (4-9) Height: 70' Spread: 50' Royalty: \$1.20 PP7552

Upright vase shaped shade tree, yellow fall color. Resistant to disease. Gray, green, orange-brown exfoliating bark. Excellent resistance to the common pests and diseases of elm trees. Best in the South. A Dirr selection.

61.40 37.00 31.00

'Frontier'

U. parvifolia x U. carpinifolia

Zone (4-10) Height: 30' Spread: 20'

Fast growing, moderate sized tree. Great to plant under power lines and in smaller landscapes. Resistant to DED, beetles and drought. Red-purple fall color.

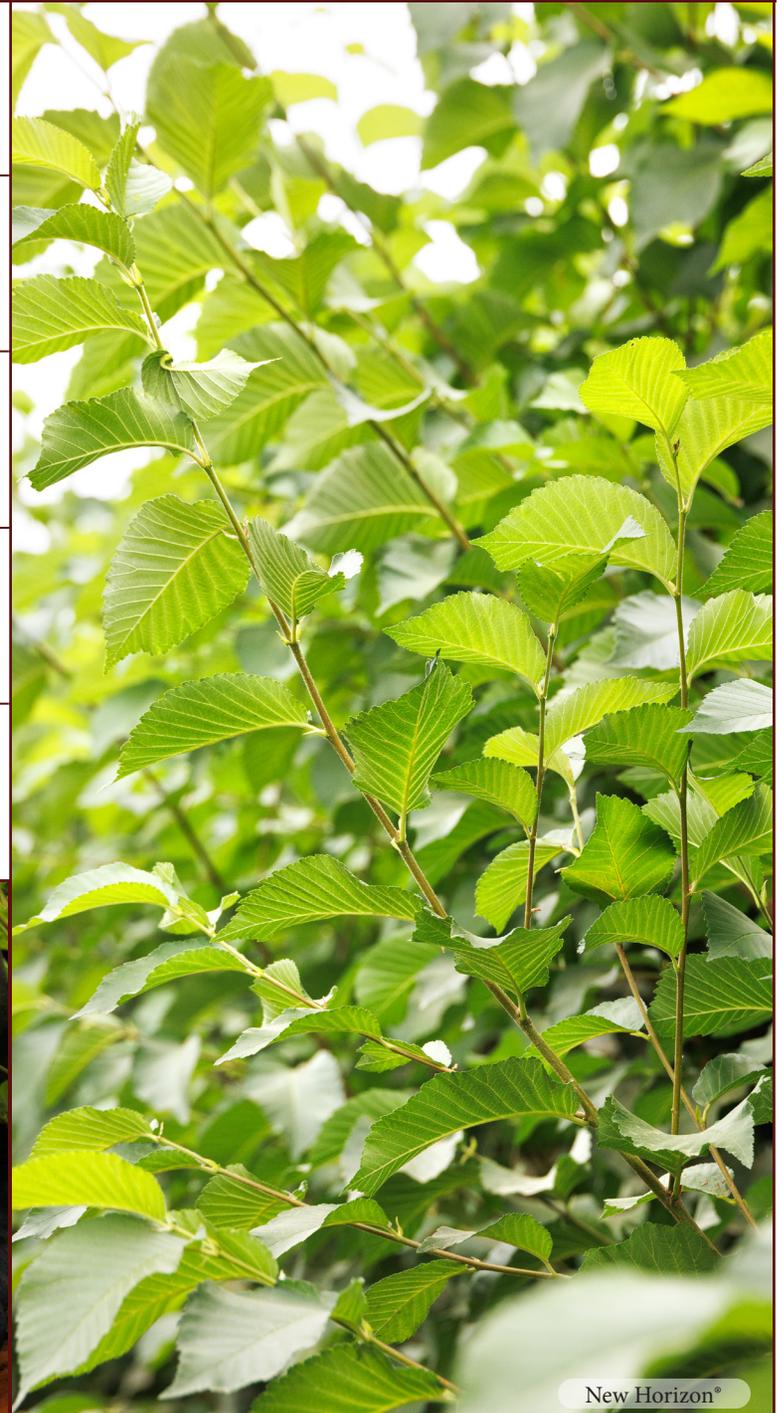

61.40 37.00 31.00

Allee®

Zone (4)	Height: 50'	Spread: 50'	Royalty: \$.60			
Upright tree with strong branching. Very vigorous resistance to disease, Elm Leaf Beetle and Japanese Beetle.						
						

New Horizon®

Terms and Conditions of Sale

Claims

Claims for any cause must be made in writing within 10 days of receipt of shipment. Any stock rejected must be reported immediately and held for advice from us as to disposition. In no case should stock be returned to us without prior authorization. We will gladly entertain such reports and make satisfactory adjustments when claims are definitely established. We shall in no case be liable for any sum greater than the amount originally received for said nursery stock and will not entertain claims after stock has once been accepted. **Cancellations must be made in writing and received by us prior to December 15th preceding the originally requested shipping date. Orders canceled after December 15th are subject to a 15% restocking charge.**

Credit

All customers must fill out and sign our confidential credit application. This is a standardized form developed by the nursery industry and provides the basic information necessary for the extension of credit.

Grading

Our minimum standards are those adopted by the American Association of Nurserymen. We strive to deliver a superior size product.

Guarantee

We give no warranty, expressed or implied, as to life, description, quality, productiveness, or any other matter of any nursery stock that we sell. It is mutually agreed that our total liability for any error, should stock prove untrue to name as labeled, shall be limited, upon satisfactory proof, of our replacing free or refunding the purchase price.

Inventory

We establish our inventory from field counts in the spring. Eighty percent of total counts are used to establish saleable numbers. Initial sizing is based on an average of past years' growth for each variety. Another count is done in mid-September. Every 10th plant is graded to establish an accurate inventory. Only eighty-five percent of this inventory will be sold until final gradeout.

If changes are necessary, we try to communicate this by mid-October. In order to ensure that repeat customers are taken care of, all of last years order will be held off inventory until August 1st. You will be contacted in early summer to reserve your plants and make any changes. After August 1st, all remaining plants become open inventory and are available on a first come, first serve basis. We believe this policy will allow you to have confidence in receiving the nursery stock you need from Robinson Nursery.

Minimum Order

All plant whips are sold in multiples of 10. Please consider this when ordering. Plants ordered in multiples of 5 will be rounded to the next highest 10. Minimum order for a pool truck is \$5,000.

Orders

Orders are accepted on the condition that they shall be void should injury befall stock from any act of God or any cause beyond our control. All orders are accepted subject to crop conditions or errors in count.

Royalties

Please note, royalty prices printed in this catalog are subject to change.

Shipping

All shipments travel at the risk and expense of the buyer. Cost of boxing or bailing to be added. Tive tracks the location of your shipments using a variety of methods, including cellular, WiFi, and GPS. Real-time sensors monitor temperature, light, shock, and humidity. You will see a \$55 charge on each shipment.

*Please note:

There will be an additional charge if you want tree wraps or containers left on plants. Also, if you arrange your own truck and you send a non refrigerated truck, you will waive your rights to any credits or claims against Robinson Nursery.

Shipping Hours

Shipping hours are Monday through Friday from 7:30-4:00. Saturday shipments by appointment only.

Terms

***Payment in advance of shipment is required unless credit is established.**

Net is due 30 days from date of invoice for firms with established credit. Satisfactory references are required prior to shipment for those customers unknown to us. Interest will be charged at the rate of 1.5% per month (annual percentage rate of 18%) on all past due accounts. Please note, there will be a 3.2% processing charge added for payments made by credit card.

Discount Schedule

Invoice must be paid within 30 days of receipt of shipment to qualify for discount.

\$100,000+	25%

SAFETY STARTS WITH ME

At Robinson Nursery, our highest priority each day is to make sure every team member makes it home safely to their families.

There is a good chance you have heard us reference Policy Deployment and continuous improvement. Policy deployment is the method we choose for aligning our organization's goals, ensuring that everyone understands how their work contributes to the overall strategy. Our leadership team sets companywide improvement targets at our annual Policy Deployment planning meeting; and we have a new safety target on the board every year. Improvement targets always stem from our Robinson Nursery values. Our safety target for 2025 is: "develop a safety culture by creating and deploying safety accountability standards." This target underscores our commitment to ensuring that safety remains a shared responsibility and top priority across all levels of the organization.

The Robinson Nursery Safety Committee consists of 6 people: Diana Ceja, Jesus Ochoa, Sarahy Valencia, Obdulia Cornejo, Julio Padilla, and Gabriel Mendoza. In addition to the primary Safety Team, there are subcommittees for each division of the company. Having safety team members in each department creates more opportunities for employees to engage in safety improvements in their area, reinforcing the collaborative effort needed to keep our workplace safe.

With the help of the Oregon workers' compensation company, SAIF, a bilingual Safety Training Day was held January 31st. Team members were split into 4 groups that moved through interactive training stations, designed and taught by Robinson Nursery team members.

Connie Lomeli (HS Internship Supervisor and RNI Events Coordinator) Rodrigo Jimenez (Container Farm Supervisor),

Jesus Ochoa (H2A Housing Manager and Safety Assistant) and Antonio Mendoza (Plant Health Manager) and Gloria Flores (Containers Staking/Tying Supervisor) demonstrated when and how to properly use personal protective equipment. Team members received instructions regarding back braces, respirators, masks, the importance of proper footwear, high visibility vests, various glove and eye protection options available, and more.

Jaime Morales (H2A Field Team Lead), Alberto Padilla (Propagation Manager), Maribel Felix (Safety Subcommittee Member), and Gabriel Mendoza (Production Manager) walked everyone

Sarahy Valencia (Shipping Manager Assistant), and Naomi Hernandez, our SAIF Consultant, reviewed Proper Lifting Procedures. It is easy to forget that when an object is a different size, weight, or height, a different lifting technique is required.

Adam Tucker (Maintenance Manager) and Francisco Diaz (Cooler Storage Team Lead) and Rigoberto Elias (Inventory/Grading Manager) ran the Fall Protection seminar. The team received clarifying instructions on how to properly use a ladder, including how to inspect a ladder to be sure it is in good working order. Francesco took to the sky, demonstrating how to use a full body harness and the fall protection systems we have available in our coolers.

through the Slips, Falls and Trips course. They spoke about keeping workspaces clean, how to identify hazards and stressed the importance that it is everyone's responsibility to eliminate them. If you see something, do something.

It is our intention to create a culture at Robinson Nursery where every team member takes ownership in ensuring the safety of all. This event ensured a solid foundation was laid for achieving our 2025 safety target. Since this event, we have seen an increase in safety participation. When it comes to safety, we all need regular reminders, but at Robinson Nursery, we know: la seguridad comienza conmigo. Safety starts with me.

Growing People and Plants to Change the World.

INTERNSHIP PROGRAM

Robinson Nursery is a second generation, family-owned and operated, wholesale shade and ornamental tree grower. We prioritize continuous improvement & value every individual in every process.

This summer, be a part of an innovative, inclusive team that values your contributions and is here to help you grow.

The Green Industry is the fastest growing sector in Agriculture, and Oregon is one of the top three nursery production states in the U.S.

Seize this opportunity to learn from some of the best in the industry.

WHEN: June – September
(Determined by student's schedule)

WHERE: In the beautiful Willamette Valley,
just south of McMinnville, Oregon.

PAY RATE: \$19.82 an hour
(Subject to current Oregon Adverse Effect Wage Rate)

PROGRAM OVERVIEW:

PHASE 1: Hands-on work experience

- o Propagation (2 weeks)
- o Field (2 weeks)
- o Containers (2 weeks)

PHASE 2: Special projects

- o IMP / Scouting
- o Standard work documentation
- o Research & Development
- o Inventory / Estimations

Education Seminar:

- o Business strategy
- o Leadership principles
- o Fertilizer management
- o Plant Health

Additional Activities:

- o Job shadow opportunities
- o Mentorship opportunities
- o Policy Deployment
- o Local Nursery Tours

SPOTS ARE LIMITED!

To apply: Please submit your resume and cover letter to Program Coordinator, Tyler Hoskins

Frequently Asked Questions

How long have you been in business?

Over 40 years! Robinson Nursery was founded by Rick and Roxanne Robinson in 1984 and began operating full-time in the early 1990's.

What are your primary products?

97% of our nursery stock is ornamental and shade trees, 3% are shrubs; of those plants: 30% are bareroot and 70% are container plants.

How do I know which offerings are container liners?

Varieties that offer GRL™ sizes display the GRL™ logo in the plant description. The GRL™ sizes we offer are labeled as GRL™ in the size column. If GRL™ it is not specified in the size name, it is a bareroot plant.

How many acres are in production?

560 acres. 300 acres are nursery stock; 25 of those acres are greenhouses. 235 acres are vegetable crops for seed, corn and wheat.

Who are your customers?

We sell to B and B growers, container growers, re-wholesalers, online retailers, and garden centers across the contiguous United States and Canada. The majority of our customers are located in the eastern half of the United States. Our customers field plant Robinson Nursery liners as well as pot the liners into containers.

How do you ship your product?

We use trucking brokers nationwide to find the best, most affordable, refrigerated trucks and rail cars. We have a minimum order of \$5,000 to make these logistics possible.

Where do you source your plant material from?

Our inhouse propagation department makes 95% of what we plant. The other 5% of plant material comes from trusted local suppliers.

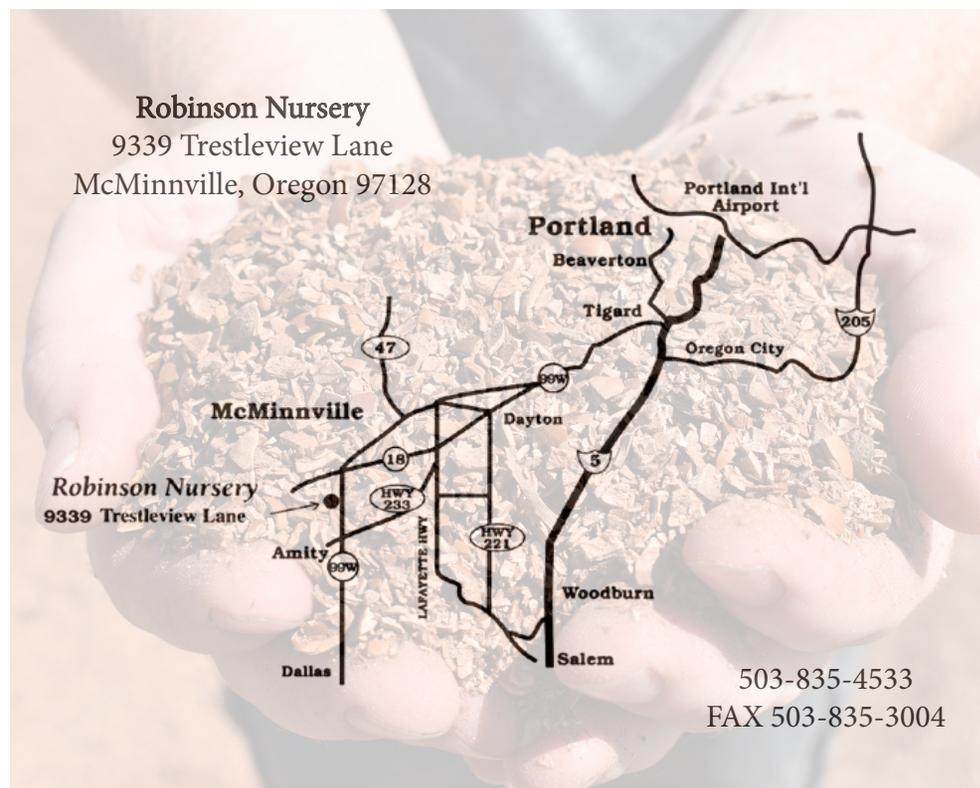

Directions to Robinson Nursery

Robinson Nursery is located approximately one hour from Portland International Airport.

- Follow I-84 west to Portland
- Take I-5 South to exit 294 Tigard
- Follow 99W southwest for 27 miles to Hwy 18
- Follow Hwy 18 west for 9 miles and take the second McMinnville exit
- Turn left on Hwy 99 and drive for 2 miles
- Turn right on Trestle View Lane

When you are in the Portland area, we encourage you to visit us!
Our hours are 8:00 a.m. to 4:00 p.m. Monday through Friday.

If these hours are inconvenient, please call and we would be happy to arrange a tour that fits your schedule.

Our Product Line Descriptions

Branched (br) are typically two year top trees that are well branched. These trees are perfect for the container grower that wants quick turns or the field grower that is looking to reduce developmental labor costs.

Multi-stem (ms) A plant that has three or more stems growing from a single root system.

Grow Ready Liners™ (GRL™) All our container trees are grown in air root pruning containers. These containers are specifically designed to create a more fibrous root system. Air pruning roots as they grow eliminates circling roots that may cause the tree to girdle later in life. Mulching is used to reduce the need for herbicide which has enhanced tree caliper and accelerated root growth. Plants are shipped in our GRL™ insert that is easily removed before planting. This allows us to recycle the plastic containers, helping the environment while reducing shipping charges.

GRL™ A 3 gallon container plant comparable to a 5-6' bareroot whip. The root system on a GRL™ is superior to a bareroot plant. These plants are well rooted and developed in an air root pruning container.

36" gft GRL™ 3 gallon container plant that is Top-Grafted at 36".

GRL™ #3 ms 3 gallon multi-stem container plant.

GRL™ 5 Stem 3 gallon container plant made up of 5 evenly spaced plants in a single container to create a single plant.

GRL™ Shrub Form 3 gallon container shrub.

GRL™ Tree Form 3 gallon container plant. The term 'Tree Form' identifies a plant that is typically a shrub but we have made a tree.

GRL™ Prem is our "premium" 3 gallon container plant comparable to a 5-6' branched tree. These have the same great root system as the original GRL™ but are typically a year older. This is one of the best valued products in our line.

#7 GRL™ Comparable to a 6' branched to 1" branched tree. They have a 7 gallon root system that has been air pruned allowing larger, more difficult varieties to transplant with ease and hit the ground growing. #7 GRL™ typically grow more quickly than a bareroot of the same size making them the best option for quick turn container shift ups.

GRL™ #7 ms A 7 gallon multi-stem container plant.

Light Branched (lt) Similar to branched trees, except they have less or shorter branches. These plants will take more time to develop the heads but are an economical choice for the grower that has time to develop the canopy and growers looking for larger caliper plants to line out.

Undercut (uc) are trees root pruned in our fields with special equipment. An undercut tree can be root pruned 1 or sometimes 2 times. Trees are undercut to control sizing to customer specification. The process of undercutting also increases the transplant ability by creating a more fibrous and compact root system.

Weeping Trees have pendulous branches and are graded differently than our typical bareroot plants. They are graded by *Heavy (Hvy)*, #1, and #1 light (#1 lt).

Heavy (hvy) and #1 are ideal for planting into containers or for the field grower looking for a more developed head. The primary difference between heavys and #1 are the caliper.

#1 light (#1 lt) is a good value to a field grower that has time to develop the head and caliper.

Whips (wh) are typically one year top trees. Dependant on the variety, these trees will range from light or minimal branching to no branching at all.

Bareroot Nursery Stock Handling Guide

PLANTING DEPTH

Planting depth is a hot topic among arborists these days, because many trees fail when planted too deep. A tree's planting depth is critical to its growth and success. Once a tree has been planted and settled in, the main anchoring roots should only be 2 or 3 inches below the soil level. While it is better to plant a tree too high than too low, roots exposed to the sun will sun-scald.

SWEATING NURSERY STOCK

Sweating is a process used to force bud break and activate growth in dormant nursery stock. The goal is to rehydrate plants by increasing temperature and humidity surrounding the dormant tree. A temperature of 50 to 60° F is optimum. We suggest sweating the following genera: **Carpinus caroliniana, Crataegus, Celtis, Quercus, Nyssa and Styrax.** Some suggest that this process also be used on **Acer, Amelanchier, Betula, Fraxinus, Gleditsia, Liquidambar, Malus, Ostrya, Pyrus, Stewartia, Syringa and Tilia.** If you have had trouble with any of these trees in the past, this simple step may save you headaches.

The process is fairly easy. It is best done out of direct sunlight so that excessive temperatures do not build up. Place a layer of moistened burlap, straw, or sawdust on the ground. Soak the tree roots in water. Shake off excess moisture and lay the trees down on the moist media. You may wish to spray the trees with a mold inhibiting fungicide to be on the safe side. Cover the trees with another layer of moist media. Finally, cover everything with a tarp or piece of plastic and seal the edges. Check the trees daily for swelling buds. You should see results in three to four days. Sweating should not be done until you can plant the tree out, and the threat of cold temperatures has passed. Tender young tissues will be damaged in sudden cold weather.

ROOT PRUNING

Roots are the main storehouse of energy during the dormant season. In the spring, most of the energy used by the tree, in the first six weeks of new growth, comes from this stored energy. We suggest that in preparing your bareroot tree for planting, you remove as little root as possible. Prune any broken roots back to solid wood, and make a fresh tip cut at the end of large roots. The more energy the tree has available, the sooner it will reestablish itself, and the faster it will grow to a sellable size.

WHEN YOU CHOOSE
ROBINSON NURSERY, YOU
RECEIVE MORE THAN GREAT
PRODUCT.

YOU HAVE A PARTNER IN
GROWING.

How can we help you today?

We've made several updates within our office. Please take a moment and review our team's updated roles and responsibilities. This will help you connect with the team member best suited to assist you. If you have any questions, please don't hesitate to reach out.

Diana Ceja

Office Manager/ Human Resources / Purchasing / Safety
diana@robinsonnursery.com

- Human Resources Management
- Develop and Provide Employee and Management Training
- Sourcing and Procurement, managing contracts
- Oversee Company Safety Program
- Work with Regulatory State and Federal Agencies

Stephanie Roha

Executive Assistant/ Accounts Payable/ Payroll / IT Manager
stephanie@robinsonnursery.com

- Benefits Specialist
- Payroll processing
- Oversee IT projects
- Network Administrator
- Accounts reconciliation

JoAnna Ponce

AR Specialist/ HR Assistant/ Shipping Assistant
joan@robinsonnursery.com

- Manages Customer accounts (new accounts, billing, collections, credit inquiries)
- Liaison between customer and sales representative
- Benefits Specialist
- Coordinates trucking paperwork with Shipping Manager
- Assists with Human Resource Management

Lisa Ahern

Customer Service/ Shipping logistics/ Regional Sales
lisa@robinsonnursery.com

- Assist customers with Orders and Shipping
- Coordinates logistics with truck brokers
- Arranges shipping with Shipping manager
- Works with sales team on orders and shipping
