

Amelanchier x grandiflora

'Cumulus'TM Serviceberry

Zone: 4-7

Height: 25'

Width: 15'

Crown: Upright oval
Growth Rate: Moderate
Soil: Loam
pH: Acidic
Drought: High tolerance
Drainage: Well drained
Salt: Poor tolerance
Breakage: Susceptible

'Cumulus'TM is an upright oval formed tree with dark green summer foliage and yellow, orange and red fall color. In early spring, before leaves emerge, it is covered with white blooms. It is best used with a dark background. In summer, red berries appear, and as they ripen, turn black. The birds will remove these. Amelanchiers will take some shade. There are disease problems in some areas. Robinson Nursery offers 'Cumulus' as bare root whips and branched trees.
