

## Cornus alba 'Argenteo marginata' - Variegated tartarian dogwood

Zone: 3-7

Height: 6'-10'

Width: 5'-8'

Exposure: Full sun to partial shade  
Crown: Upright, oval to rounded  
Growth: Rapid  
Soil: Moist well drained, but adaptable  
pH: Adaptable  
Drought: Tolerant once established

Large rounded shrub with wide variegated foliage and red branches. Fall color is green or greenish purple. Miniature cream colored flowers in late May and early June. Fruits are creamy white sometimes tinged with blue. Brilliant red stems create a nice winter landscape. Prune old stems to keep plant vigorous and maintain the best twig color.
