Crown: Tree form pyramidal

Growth: Fast

Soil: Best in loamy, will grow in urban soils

pH: Adaptable except in extremes

Drainage: Moist, well drained

Drought: Some drought

Breakage: No breakage

Pests: Few

Disease: Few

'Quickfire'[™] is the first *H. paniculata* to bloom in mid-summer, starting white but turning pink in short order. In fall the blooms become a dark rosy-pink. pH does not effect the flower color. Robinson Nursery offers *H. 'Quickfire'* in a tree form.
