

Malus 'Red Jewel'®

'Red Jewel'® Ornamental Apple

Zone: 4

Height: 15'

Width: 12'

Crown: Irregular oval
Growth Rate: Slow
Flower: White
Fruit: Red 1/2"
Fall Color: Yellow
Disease: Good resistance
Soil: Adaptable

Malus 'Red Jewel'® is one of the newer ornamental apples on the market. It has several advantages. Foremost, it has fair disease resistance to rust and good resistance to scab, mildew and fire blight. The flower is splendid. The fruit is small, brilliantly red and persists well into the winter. When the fruit does fall it is not messy. Fall color is a yellowish.

Ornamental Apples are not being used so much these days, but they are an excellent tree for yards and parks. They provide a lot of bang for the buck. Robinson Nursery has this tree available in branched trees.
