

## Malus 'Robinson'

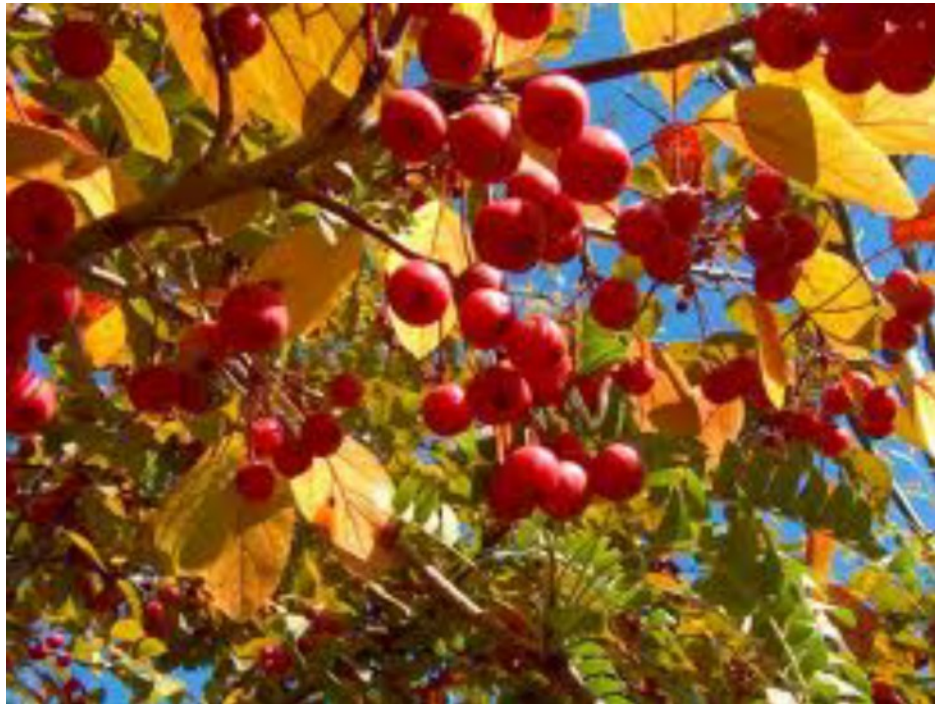

Zone: 4

Height: 15'-25'

Width: 15'-25'

Exposure: Full sun  
Crown: Round  
Growth: Vigorous  
Soil: Adaptable except hard clay  
pH: Adaptable  
Drainage: Well drained  
Drought: Tolerant  
Breakage: String  
Pests: Several  
Disease: Resistant

'Robinson' blooms deep pink in April, followed by 3/8" red fruit which persist into winter. The foliage is purple to begin, then turns bronze green in summer, and a good orange in fall.
