

Rhamnus frangula Ron Williams - Fine Line Fern Leaf Buckthorn

Zone: 2-7

Height: 5'

Width: 2'-3'

Crown: Upright
Growth: Moderate
Soil: Clay, loam, sand
pH: Acid, slightly alkaline
Drought: High tolerance
Drainage: Well drained
Breakage: Resistant

This selection of Rhamnus by 'Proven Winners'® combines feathery foliage with upright habit. It can be used for hedging or as a single specimen. This is a fairly maintenance free shrub, only needing an occasional trim. Plant in full sun or part shade. Slow release fertilizer is advised in the spring.

Foliage turns butter yellow in fall, then falls off to expose attractive bark. Black berries form in the fall, and are not edible. Robinson Nursery provides Rhamnus Fine Line® in several size of bare root shrubs.
