

Syringa 'Bloomerang' - Bloomerang Lilac

Zone: 3

Height: 4'

Width: 4'

Exposure: Full Sun

Form and Crown: Round

Growth Rate: Moderate

Preferred Ph: Neutral to Acid

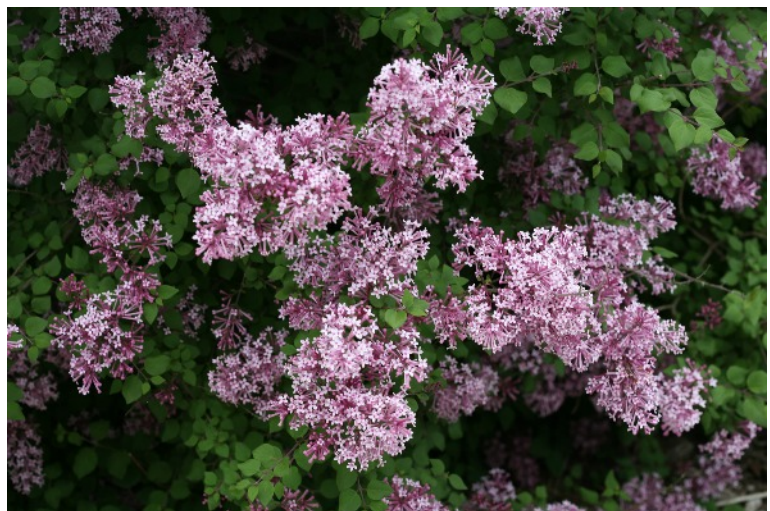

Drought: Tolerant after establishment

Drainage: Good drainage required

Preferred Soil: Loam, but adaptable

Insect Pest: Few

Disease Problems: Mildew resistant

'Bloomerang'® was introduced by Proven Winners as a re-blooming lilac.

The bloom is a fragrant rich purple fading to lavender,
and blooms in spring, summer and fall.

Prune the spent blossoms in spring to promote more flowering later.

The plant is somewhat open, but will become more dense with pruning.
