

## Acer saccharum 'Flax Mill'

## 'Majesty'® Sugar Maple

Zone: 4-8

Height: 50'-75'

Width: 50'

Crown: Oval, Dense  
Growth Rate: Moderate  
Soils: Clay, Sand, Loam  
Drainage: Well Drained  
pH: Acid to Neutral  
Breakage: Resistant  
Pollution: Tolerant

'Majesty'® was found in New York. It has a straight leader and abundant branches, producing an oval head at a fairly early age. It is vigorous for a Sugar Maple, which is moderate compared with a Norway Maple. This should be an excellent choice for the nursery grower. The tendency toward a straight central leader saves a lot of work. Majesty® is resistant to frost cracks and sunscald.
