Crown: Upright, Oval  
Growth Rate: Fast  
Soils: Loam to Sand  
pH: Acid to Neutral  
Breakage: Resistant  
Drought: Tolerant

'Wright Brothers' Maple was developed by the folks at Siebenthaler Nursery in Dayton, Ohio. This is a fast growing Sugar Maple which is resistant to frost cracks and sunscald, and tends to have more of a red fall color than the other Sugars. 'Wright Brothers' is also resistant to leaf scorch and is hardy to -25° F. The growth rate is said to be twice as fast as the species. Fall color is excellent, as are all the Sugar Maple cultivars. It has a tendency to keep a straight single leader and branching is abundant and branching angles are large enough to avoid included bark in crotches.
