

## CONGRATULATIONS MR. AND MRS. ROBINSON!

Joshua Ryan Robinson and Ashley Rae Hoff tied the knot Friday, the 12th of August, 2016. The ceremony and reception were held in Silverton, Oregon at the incredible Oregon Gardens; an 80-acre botanical garden showcasing the diverse beauty of the Pacific Northwest. Not even the August heatwave could slow the celebration of this fantastic couple. It was a day filled with love, laughter and some pretty awesome dance moves. We are overjoyed to welcome Ashley and her son, Kaden into our family and very excited to see our third generation continue to grow. Love and Blessings to the happy couple and their precious sons.

Traveling is an undainable investment of your money and your time. In a day and age when anything is possible at the click of a button, taking the time to step into a trade show may seem like an unnecessary tradition of days gone. The Farwest show is clear evidence that the tradition of coming together, face-to-face, has retained it's emense value. Not only for capturing otherwise unattainble opportunities for your buisness, but the Farwest Show never fails to reimburse you with quality interactions and fond memories. What truly makes the Farwest Show "Far from ordinary" are the exceptional individuals that you will find there.

Thank you to each and every-one of you that were able to tour with us this season. It was a great pleasure to spend time with so many of you. We truly enjoy connecting with you, listening to the visions and goals you have for the future and sharing ours with you. We hope to see even more of you next year!

If you are interested in planning a visit to Robinson Nursery, we would love to have you. Feel free to let us know if you are in the area.

## FEATURED PLANT: **BETULA NIGRA 'HERITAGE'**

Fast growing, vigorous and hardy; this multi-stem tree, with a single root-system, features brownish bark which exfoliates to reveal a creamy white inner bark. Over the past several years we have been focusing, in the field, on developing Heritage River Birch's stem uniformity. This year, we devoted extra time and care to thinning, selecting, and pruning; yeilding our best crop ever. We are pleased with the outcome and expect you will be pleased as well with this product.
