Dear Customers and Friends,

Welcome to the 2018-2019 Catalog. We want to thank you for choosing Robinson Nursery as your supplier. For years we have been building our team. We have been fortunate to hire people who excel in their jobs and have a great passion for our mission. Our team members, sales force, and customers have helped us grow for 33 years. We couldn't imagine a better group of individuals to spend our time and passion with; we are grateful for all of you.

In this year’s catalog you will find new varieties, sizes, and production practices that will help you be more successful. We work hard every day to add value to our products and services. We continue to focus on process improvements through our Lean initiatives. We are adding new machinery all the time that reduces man hours. We strive to offer the best valued liner on the market. Check out our website at robinsonnursery.com. You will find some useful information on our products and growing practices.

We welcome you to stop in for a tour when you are in the area. Our continuing goal is to be large enough to meet your needs, yet small enough to provide great customer service. We are grateful to be your partners in growing!

May God continue to bless you, your families, and your businesses.

Chris Robinson & Josh Robinson

It is our mission to provide the highest quality bareroot and air root pruning container nursery stock at the best value. We offer a wide variety of high demand plants and work with nurseries, brands, and breeders to provide the newest and best tested plant material. All our liners are produced from seed, cuttings, or grafts. We use inventory numbers that allow extra product at grade out, enabling us to consistently deliver the plant material confirmed to the customer. We greatly value our employees and are proud to provide a safe and pleasant work place that offers opportunities for growth.

It is our privilege to develop lasting relationships with you, our customers, so that we may continue Growing Your Expectations.

Welcome to Robinson Nursery’s Fall 2018 - Spring 2019 Catalog

Our exclusive line of Grow Ready Liners™ allow you to plant difficult to transplant varieties with confidence. Pictured from left to right: #7 GRL™, #3 Premium GRL™, #3 GRL™

Hazelnut shell mulch reduces the need for herbicides. This has provided us with accelerated root growth as well as enhanced tree caliper.

Shipping our product in netting allows us to recycle the plastic containers, helping the environment, while reducing shipping charges.

Acer campestre - Hedge Maple

Zone (5a) Height: 30'-35' Spread: 30'-35' $3.80 $2.60 $2.00 $1.50 $1.00 $0.75 $0.50 $0.30

Hedge maple is a broadly round shaped tree with dense, dark green foliage. Prefers alkaline soil. Has attractive bark, uniform yellow fall color, and is urban tough.

Acer x freemanii - Freeman Maple

Zone (4-7) Height: 50'-70' Spread: 15' $3.70 $2.60 $2.00 $1.50 $1.00 $0.75 $0.50 $0.30

Our GRL™ products are shipped in mesh netting that is easily removed before planting.
Acer griseum - Paperbark Maple
- Height 20'-25'
- A dynamite pyramidal maple with attractive corky bark and a dark green foliage. Prefers cooler soils, growing better in the North.

Acer negundo - Boxelder Maple
- Height 6'-8'
- The king of purple leafed maples. Slow growing, takes 1 or 2 additional years to make a difference. Dark purple leaves are common throughout the year, however brighter fall color can be seen in colder climates.

Acer palmatum - Japanese Maple
- New Size New Size New Size New Size New Size New Size New Size New Size
- 'Genki'™: Height 1' Spread 1'
- 'Genki'™ is a new size class introduction with a compact growth habit. Excellent choice for containers in the South.

Acer rubrum - Red Maple
- Height 40'-50'
- Large, uprightround shapetree with available red, orange and yellow fall color. 'October Glory' is a red maple hardy to the Twin Cities. Petite leaves with a rounded crown at 2" caliper. A staple in the trade.

Acer saccharum - Sugar Maple
- Height 60'-80'
- Large, upright-rounded shade tree with variable red, orange and yellow fall color. Most varieties show fall color "all the way up and straight down." 'Sensation'™ is our favorite sugar maple. Adaptable to a range of conditions. No significant pest or disease problems.

Acer negundo - Boxelder Maple
- Height 6'-8'
- 'Sensation'™: Height 30'-40'
- Medium sized maple that is native to Eastern North America. Found to oval crown. Fall color is scarlet to brilliant orange in its second or third season.

Acer palmatum - Japanese Maple
- New Size New Size New Size New Size New Size New Size New Size New Size
- 'Crimson King'™: Height 6' Spread 8'
- Medium sized maple with a purple red fall color. Makes up quickly and uniformly. Excellent choice for pot-in-pot.

Acer rubrum - Red Maple
- Height 40'-50'
- 'Royal Red'™: Height 60'-80'
- A newer seedless selection that has performed exceptionally well in the South. Makes up quickly and uniformly. Excellent choice for pot-in-pot.

Acer saccharum - Sugar Maple
- Height 60'-80'
- 'Sensation'™: Height 60'-80'
- Large, upright-rounded shade tree with available red, orange and yellow fall color. 'Sensation'™ is our favorite sugar maple. Adaptable to a range of conditions. No significant pest or disease problems.
Acer saccharum - Sugar Maple (continued)

**Commemoration**
- Zone (4-8)
- Height: 50'-75'
- Spread: 35'
- Royalty: $.50
- PP11,119

A dark green selection with great fall color. Performs well in alkaline soil and handles drought better than other cultivars. Needs good drainage.

**'Endowment**
- Zone (4-8)
- Height: 50'
- Spread: 20'

The best upright selection of sugar maples. Great fall color not dependent of weather. Very columnar form makes a great street tree.

**Fall Fiesta® 'Bailsta'**
- Zone (4-8)
- Height: 50'
- Spread: 35'
- Royalty: $.50
- PP5079

Vigorous grower with glossy deep green foliage. Resistant to leaf tatter. Fall colors from yellow to orange and red.

**Heritage® 'Cully'**
- Zone (4-9)
- Height: 40'-50'
- Spread: 30'-40'
- Royalty: $.90
- PP16,362

Has very late in the season. Attains a height of about 25-30'. Fall color is a mix of orange, red, and green. Fall color in very late in the season.

**Hot Wings® 'BNMTF'**
- Zone (4-9)
- Height: 40'-50'
- Spread: 30'-40'
- Royalty: $.50
- PP16,362

An oval to pyramidal tree with white exfoliating bark. Good tree for hot and humid climates. Clean, shiny leaves. Resistant to aphid and borer. GRL™ are five stem clumps.

**Jacquemontii Whitebarked Himalayan Birch**
- Zone (3-8)
- Height: 45'
- Spread: 30'
- Royalty: $1.00
- PP15,023 UC UC UC

Beautiful multi-colored exfoliating bark. Dark green leaves with gold fall color. Resistant all types of soil. GRL™ are five stem clumps.

**Legacy®**
- Zone (4-9)
- Height: 45'
- Spread: 35'
- Royalty: $.75 cl
- PP15,023

Outstanding drought tolerant trees. Brilliant dark red samaras last all summer long. A fairly fast growing sugar maple. Drought tolerant. Grows full sun to partial shade. Fall color of orange and red in warmer climates and yellow in cooler climates.

**Pacific Sunset® 'Warrenred'**
- Zone (3b-9)
- Height: 40'
- Spread: 30'
- Royalty: $1.00
- PP16,362

A variegated river birch from our friends at Shiloh Nursery. The leaves are green in the center with an attractive ivory margin.

**'Satisfaction'**
- Zone (3-8)
- Height: 25'-30'
- Spread: 25'-30'
- Royalty: $.70
- PP11,119 UC UC UC

A McKay Nursery introduction. Excellent smaller scale maple with a moderate growth rate. The foliage is smaller than the Norway type maples. Smaller in stature it attains a height of about 25-30'. Fall color is a mix of orange, red, and green. Fall color in very late in the season.

**'Shiloh Splash'**
- Zone (3-8)
- Height: 20'-30'
- Spread: 10'-15'
- Royalty: $1.00
- PP16,362

A great tree for the prairie and mountain states, up to 7000' elevation. Outstanding drought tolerant tree. Brilliant dark red samaras last all summer long. Prized for its distinctive white bark which makes it a welcome addition in winter. Does best in full sun and well-drained light soils.

**'Sorensen'**
- Zone (4-7)
- Height: 20'-30'
- Spread: 15'
- Royalty: $.75
- PP16,362

A McKay Nursery introduction. Excellent smaller scale maple with a moderate growth rate. The foliage is smaller than the Norway type maples. Smaller in stature it attains a height of about 25-30'. Fall color is a mix of orange, red, and green. Fall color in very late in the season.

**'Sundance'**
- Zone (4-7)
- Height: 25'-30'
- Spread: 20'-25'
- Royalty: $.70
- PP11,119

A McKay Nursery introduction. Excellent smaller scale maple with a moderate growth rate. The foliage is smaller than the Norway type maples. Smaller in stature it attains a height of about 25-30'. Fall color is a mix of orange, red, and green. Fall color in very late in the season.

**Takashima**
- Zone (4-7)
- Height: 20'-30'
- Spread: 15'-20'
- Royalty: $.75
- PP16,362

A McKay Nursery introduction. Excellent smaller scale maple with a moderate growth rate. The foliage is smaller than the Norway type maples. Smaller in stature it attains a height of about 25-30'. Fall color is a mix of orange, red, and green. Fall color in very late in the season.

**Tatacare**
- Zone (4-9)
- Height: 45'
- Spread: 30'
- Royalty: $1.00
- PP16,362

A McKay Nursery introduction. Excellent smaller scale maple with a moderate growth rate. The foliage is smaller than the Norway type maples. Smaller in stature it attains a height of about 25-30'. Fall color is a mix of orange, red, and green. Fall color in very late in the season.

**Heritage**
- Zone (4-7)
- Height: 45'
- Spread: 35'
- Royalty: $.75 cl
- PP16,362

Superior form of sun birch. Glossy green leaves with creamy white and orange exfoliating bark. Resistant to Bronze Birch Borer. Front tissue culture. GRL™ are five stem clumps.

**Shikish®**
- Zone (4-8)
- Height: 40'
- Spread: 30'
- Royalty: $1.00
- PP16,362

A McKay Nursery introduction. Excellent smaller scale maple with a moderate growth rate. The foliage is smaller than the Norway type maples. Smaller in stature it attains a height of about 25-30'. Fall color is a mix of orange, red, and green. Fall color in very late in the season.

**Sunset**
- Zone (4-7)
- Height: 20'-30'
- Spread: 15'-20'
- Royalty: $.75
- PP16,362

A McKay Nursery introduction. Excellent smaller scale maple with a moderate growth rate. The foliage is smaller than the Norway type maples. Smaller in stature it attains a height of about 25-30'. Fall color is a mix of orange, red, and green. Fall color in very late in the season.

**Sunset Beech**
- Zone (4-8)
- Height: 40'
- Spread: 30'
- Royalty: $.50
- PP11,119

An excellent small tree with white exfoliating bark. Good tree for hot and humid climates. Clean, shiny leaves. Resistant to aphid and borer. GRL™ are five stem clumps.

**'Wright Brothers'**
- Zone (4-7)
- Height: 70'
- Spread: 50'
- Royalty: $1.00
- PP11,119

Fastest growing sugar maple in the trade. Upright rounded growth habit. Green summer foliage turning to red in fall. A choice sugar maple!

**'Wright Brothers'**
- Zone (4-7)
- Height: 70'
- Spread: 50'
- Royalty: $.50
- PP11,119

Fastest growing sugar maple in the trade. Upright rounded growth habit. Green summer foliage turning to red in fall. A choice sugar maple!

**'Wright Brothers'**
- Zone (4-7)
- Height: 70'
- Spread: 50'
- Royalty: $.50
- PP11,119

Fastest growing sugar maple in the trade. Upright rounded growth habit. Green summer foliage turning to red in fall. A choice sugar maple!
**Carpinus betulus** - Hornbeam

- **Zone (3)** Height: 30' Spread: 15' Roxbury 1.75 PP16,964
  - Columnar to narrowly pyramidal shape with strong central leader. Dark changes color with age. The variety of color and texture adds winter interest.

**Betula populifolia** - Gray Birch

- **Zone (5-8)** Height: 30' Spread: 25' Roxbury 3.12 PP22,027
  - A white barked birch with beautiful dark green foliage changing to yellow in the fall. It tolerates extreme temperatures and has shown good resistance to Bronze Birch Borer.

**Carpinus caroliniana** - American Hornbeam, Blue Beech

- **Zone (5-8)** Height: 20'-30' Spread: 15'-35' Roxbury 3.85 PP22,027
  - Small to medium tree with dense oval shape. Tightly branched with very dark green leaves and yellow fall color. Limbed to 6".

**Betula platyphylla** - Japanese White Birch

- **Zone (5-8)** Height: 20'-30' Spread: 15'-30' Roxbury 3.85 PP22,027
  - Small globe-shaped tree with white flowers in early spring. Green heart-shaped leaves turn yellow in fall.

**Catalpa speciosa** - Hardy Catalpa

- **Zone (5-9)** Height: 60' Spread: 40' Roxbury 3.85 PP22,027
  - Slow growing round shaped tree with outstanding red fall color. Tolerant of high pH soils, shade and drought, but prefers a good soil. Zones 5-9.

**Celtis occidentalis** - Hackberry

- **Zone (3-8)** Height: 30'-40' Spread: 20'-30' Roxbury 3.85 PP22,027
  - Very similar to ‘Fastigiata’ but remains narrow at maturity. Zones 4-8.

**Cercis canadensis** - Eastern Redbud

- **Zone (3-9)** Height: 20'-30' Spread: 20'-30' Roxbury 3.85 PP22,027
  - Glossy purple hearts shape leaves turn red in fall. Bears showy flowers before the leaves emerge. Very hardy, adaptable.

**Cercidiphyllum japonicum** - Katsura

- **Zone (5-9)** Height: 20'-30' Spread: 20'-30' Roxbury 3.85 PP22,027
  - Graceful pyramidal tree with yellow fall color. Performs well under a wide range of conditions.

**Cercis canadensis** - Eastern Redbud

- **Zone (3-9)** Height: 20'-30' Spread: 20'-30' Roxbury 3.85 PP22,027
  - Small to medium tree with white flowers in early spring. Green heart-shaped leaves turn yellow in fall.

**Buddleia alternata** - Buddleja

- **Zone (5-9)** Height: 8' Spread: 10' Roxbury 3.85 PP22,027
  - A small to medium sized shrub with clusters of tiny fuchsia-pink to red flowers bloom for two to three weeks in early spring before the foliage emerges. Pruning is important to maintain shape.

**Prunus serrulata** - Japanese Flowering Cherry

- **Zone (5-9)** Height: 15'-20' Spread: 15'-20' Roxbury 3.85 PP22,027
  - Rosy flowers are followed by red-purple new foliage that turns to wine-red burgundy in summer & holds well throughout the fall. Drought tolerant.

**Liriodendron tulipifera** - Tulip Poplar

- **Zone (3-9)** Height: 20'-30' Spread: 20'-30' Roxbury 3.85 PP22,027
  - Rapidly growing shade tree with yellow fall color and corky rough bark. Performs well in a wide range of conditions.

**Quercus alba** - White Oak

- **Zone (3-9)** Height: 60' Spread: 60' Roxbury 3.85 PP22,027

**Lavender Twist® 'Covey'**

- **Zone (5-9)** Height: 20' Spread: 15' Roxbury 1.65 PP17,740 New Size
  - Spring starts with tiny lavender-purple redbud blooms. Semi-glossy, heart-shaped leaves are burn resistant.

**Forest Pansy® Redbud**

- **Zone (6-9)** Height: 20' Spread: 15' Roxbury 1.00 PP10,328
  - Dignified dark purple foliage. The veins on the back of the leaves are a deep maroon and provide a nice contrast to the light grey-green color on the backs of leaves. The purple-pink flowers appear all over the spring in early bloom before the leaves emerge. Leaves turn to burgundy in later seasons.

**Lavender Twist® 'Covey'**

- **Zone (5-9)** Height: 20' Spread: 15' Roxbury 1.65 PP17,740 New Size
  - Spring starts with tiny lavender-purple redbud blooms. Semi-glossy, heart-shaped leaves are burn resistant. The veins on the back of the leaves are a deep maroon and provide a nice contrast to the light grey-green color on the backs of leaves. The purple-pink flowers appear all over the spring in early bloom before the leaves emerge. Leaves turn to burgundy in later seasons.

**Appalachian Red**

- **Zone (3-9)** Height: 20'-25' Spread: 15'-20' Roxbury 3.85 PP11,790
  - Spiny stems with very large purple-red redbud blooms. Some green, heart-shaped leaves emerge with orange-red color before maturing to bright gold. Even in full sun these golden leaves are heat tolerant.

**Hearts of Gold**

- **Zone (3-9)** Height: 20'-25' Spread: 15'-20' Roxbury 3.85 PP11,790
  - Spiny stems with very large purple-red redbud blooms. Some green, heart-shaped leaves emerge with orange-red color before maturing to bright gold. Even in full sun these golden leaves are heat tolerant.

**Whitespire**

- **Zone (5-9)** Height: 80' Spread: 40' Roxbury 3.85 PP11,790
  - Spiny stems with very large purple-red redbud blooms. Some green, heart-shaped leaves emerge with orange-red color before maturing to bright gold. Even in full sun these golden leaves are heat tolerant.

**Merlot**

- **Zone (5-9)** Height: 20' Spread: 15' Roxbury 1.00 PP16,328
  - Being bred from parents canadensis x texensis makes this redbud drought and heat tolerant. It holds a glossy wine-red leaf color through the heat of summer. It has a tighter denser habit than Forest Pansy®.

GRL™ - Grow Ready Liner™     UC - Undercut     br - Branched     lt - Light Branched     wh - Whip     ms - Multi-stem     cl - Clump

Hydrangea paniculata - Tree Hydrangea (continued)

Quick Fire* (Zone 3-9) Height 5'-8' Spread 5'-8' Bloom 1 1/2-5' PP16,812
The flowers are pink, turning a dark rose color in fall. They are not affected by soil pH. 30" minimum standard height.

Vanilla Strawberry** (First Editions® - Keyke) (Zone 4-9) Height 4'-6' Spread 4'-6' PP20,670
The flowers are pink in early summer, then turn salmon pink and then strawberry pink in the fall. These new flowers continue to open into late summer so entire plants may display all three color stages at one time. The flowers are borne on red stems, making it a contrast against the green leaves.

Hydrangea quercifolia

Nine® (Zone 5-9) Height 6' Spread: 6' Royalty $.85 PP12,680
Large arching flower panicles (10-14") have white blooms in early summer fading to pink. Long blooming period. Good fall foliage color of bronze, maroon and purple. Tolerant of most soil conditions.

Ruby Slippers® (Zone 4-9) Height 4' Spread 4' Royalty $.85 PP20,670
Large upright flower panicles (10-14") have white blooms in early summer fading to pink. Long blooming period. Good fall foliage color of bronze, maroon and purple.

Snow Queen® (Zone 4-8) Height 4' Spread 4' Royalty $.85 PP12,680
Upright, round form, tolerant of heat, drought, adverse soils, wind and ozone. Flowers are red stems, making quite a contrast against the green leaves.

Koelreuteria paniculata - Goldenrain Tree

Zone (4-8) Height 30'-40' Spread 20'-30' 20.90 22.90 21.00 18.60 15.50 20.90
For use as a street tree, windbreak, shelterbelt, screen, or hedge. Flowers are white to creamy white, turning yellow with red centers. Chinese lantern like seed pods, very ornamental.

Golden Candles® or Flammulata (Zone 5) Height 12' Spread 5' Royalty $.65
Very narrow form of Koelreuteria with large bright gold flowers.

Yellow powder-puffed double flowers make this plant a showpiece for any landscape. One of the more vigorous roses of sharon we have grown.

Lavender Chiffon™ 'Notwoodone'

Zone (5-8) Height 5'-6' Spread: 5'-6' Royalty: $.90 PP12,619
Large royal blue flowers June to fall. Blooms best in acidic soil. Drought resistant. 24" minimum standard height.

Fire Light® Pee Gee Hydrangea

Zone (3-9) Height 4'-6' Spread 5'-6' Royalty 1.15 PPAF
Spectacular paniculata for tree form. Blooms up to 18" on one year wood. 30" minimum standard height.

Dwarf form of Limelight. Strong stems. Green summer flowers that turn pink in the fall.

29.40 26.80 24.20 26.80 24.40 20.80

**Liriodendron tulipifera - Sweetgum**

**GRL™**

Zone (4-6) Height: 60' Spread: 40'

Fruitless sweetgum with upright habit and good fall color.

**'Slender Silhouette' Exclamation Point Sweetgum**

Zone (4-9) Height: 60' Spread: 6'

Twenty feet by two feet in twelve years. This is the narrowest plant we grow.

Fast, problem free, deep burgundy fall color, a stunning architectural statement!

**'Worplesdon'**

Zone (4-9) Height: 45' Spread: 25'

Broadly pyramidal form. Elegant dark green leaves turn orange/red/burgundy in fall. Has withstood below -25°F temperatures with no damage.

**Tuliptree Tulip Poplar**

**GRL™**

Zone (5-9) Height: 70' Spread: 45'

Stately large shade tree, "cat paw" leaves, golden yellow fall color. Large and lovely bloom but difficult to see on tree.

**Maclura pomifera - Osage Orange GRL™**

**Tree Form**

Zone (5) Height: 35' Spread: 35' New Size New Size New Size New Size

**Limited quantities**

**'White Shield'**

Zone (4-9) Height: 80' Spread: 40' Royalty: $.90

Outstanding even as a juvenile. Heavy crown of deep green, lustrous leaves with well spaced branching. Deep maroon in autumn. Nearly seedless.

**Sweetbay Magnolia**

Zone (5-8) Height: 15'-20' Spread: 15'-20'

Flowers are clear yellow and set upright on the branches with a light lemon fragrance. Blooms before foliage emerges. Compact pyramidal growth great for small site or foundation plantings.

**'Sorbet'**

Zone (4-9) Height: 40' Spread: 30'

Sturdier plant than species, very showy in bloom with white flowers.

**Magnolia virginiana**

**Shrub Form**

Zone (4-7) Height: 8' Spread: 10'

Flowers deep purple red on the outside, white on the inside.

**'Leonard Messel'Magnolia x loebneri**

Zone (5-8) Height: 20' Spread: 20'

A white fragrant flower that has a pink blotch, vigorous, loosely pyramidal.

**'Merrill'Magnolia x loebneri**

Zone (4-9) Height: 15' Spread: 20'

Five inch white flowers in March before leaves appear.

**'Royal Star' Magnolia stellata**

Zone (5-10) Height: 40' Spread: 20'

Upright tree, semi-evergreen in warmer areas, white lemon scented flowers from June to fall, silvery underleaf contrasts with bright green leaf top.

**Sweetgum GRL™**

Zone (5-9) Height: 50' Spread: 30'

Tall, narrow, beautiful tree with pointed green glossy leaves and excellent but variable fall color.

**Hippodamia**

Zone (5-9) Height: 8' Spread: 5'

Outstanding even as a juvenile. Heavy crown of deep green, lustrous leaves with well spaced branching, deep maroon in autumn. Hardy varieties.

**Materials**

Zone (5) Height: 70' Spread: 80'

Strong central leader with oval form. Leaves turn brilliant red and purple in fall. Slow to moderate growth.

**Liriodendron tulipifera - Sweetgum**

**Shrub Form**

Zone (4-9) Height: 8'-10' Spread: 8'-10'

Compact, globose leaved foliage onto green leaves, slightly fragrant deep purple-red blooms that follow leaves. This hardy specimen is valued in late spring and early summer blossoms when in flower. Great for specimen plantings in the landscape or natural woodland.

**'Butterfly'**

Zone (5-6) Height: 20' Spread: 15'

Plumes are clear yellow and set upright on the branches with a light lemon fragrance. Blooms before foliage emerges. Compact pyramidal growth great for small site or foundation plantings.

**'Shyly'**

Zone (4-7) Height: 10' Spread: 10'

Flowers deep purple on the outside, white on the inside.

**'Maggie'**

Zone (5-9) Height: 15' Spread: 20'

A white fragrant flower that has a pink blotch, vigorous, loosely pyramidal.

**'Royal Star'**

Zone (4-9) Height: 15' Spread: 20'

Four to seven flowers in March before leaves appear.

**Magnolia x loebneri**

**Shrub Form**

Zone (4-8) Height: 8'-10' Spread: 8'-10'

Compact, globose leaved foliage onto green leaves, slightly fragrant deep purple-red blooms that follow leaves. This hardy specimen is valued in late spring and early summer blossoms when in flower. Great for specimen plantings in the landscape or natural woodland.

**'Ann' M. liliflora 'Nigra' x stellate 'Rosea'**

Zone (5-9) Height: 15' Spread: 20'

Fragrant pink, strap shaped flower is 4"-6" wide.

**Happidaze® 'Hapdell'**

Zone (5-9) Height: 40' Spread: 40'

Outstanding even as a juvenile. Heavy crown of deep green, lustrous leaves with well spaced branching. Deep maroon in autumn. Hardy varieties.

**Hippodamia**

Zone (5-9) Height: 8' Spread: 5'

Outstanding even as a juvenile. Heavy crown of deep green, lustrous leaves with well spaced branching, deep maroon in autumn. Hardy varieties.

**Materials**

Zone (5) Height: 70' Spread: 80'

Strong central leader with oval form. Leaves turn brilliant red and purple in fall. Slow to moderate growth.

**Liquidambar styraciflua - Sweetgum**

**GRL™**

Zone (5) Height: 8' Spread: 8'

Tall, narrow, breakfast tree with pointed green glossy leaves and excellent but variable fall color.

**At Robinson Nursery we continue to work on producing better root systems for our customers. We now grow our seedlings in root pruning containers from day 1. The air root pruning steps up program promotes fibrous root systems that will help you transplant with ease.**
Quercus - Oak (continued)

Quercus alba Shingle Oak or Laurel Oak

Zone (5-9) Height: 40’ Spread: 30’
Upright in youth, becoming rounded and spreading with age. Urban tolerant and adaptable to a wide variety of soils. Very attractive green foliage.

Quercus macrocarpa on bicolor Bur Oak

Zone (3-8) Height: 50’ Spread: 40’
Irregular open form. Dark green foliage with yellow fall color. Canopy branches. All mature trees are vase shaped, but flat 50% is especially missing.

Quercus macrocarpa Bar-Oak

Zone (3-5) Height: 50’ Spread: 30’
Irregular open form. Dark green foliage with yellow fall color. Canopy branches. All mature trees are vase shaped, but flat 50% is especially missing.

Quercus myrtaledge Chinkapin Oak

Zone (4b-7) Height: 50’ Spread: 50’
Does very well in warmer climates. More compact than Q. marilandica and adaptable to a wide variety of soils. Shiny dark green foliage.

Quercus palustris Pin Oak

Zone (4-8) Height: 55’ Spread: 40’
Very tolerant of heavy wet soils accustomed to annual flooding. Orange to red fall color. A good dependable standard.

Quercus imbricaria Shingle Oak or Laurel Oak

Zone (5-8) Height: 40’ Spread: 30’
Medium sized. Pyramidal in youth but spreads to a broad open crown with age. Tolerant of tough urban conditions, especially drought. Orange to red fall color. A good dependable standard.

Quercus macrocarpa Bur Oak

Zone (4-8) Height: 70’ Spread: 50’
Irregular open form. Dark green foliage with yellow fall color. Corky branch wings. Extremely hardy. Fern leaf foliage and upright habit, plus being seedless makes this an excellent non-invasive shrub for use in today’s landscapes.

Quercus macrocarpa

Zone (6b) Height: 60’ Spread: 35’
A vigorous growing columnar tree. Dark green glossy foliage is silver on the underside. High resistance to powdery mildew and tolerant of wet soils and drought. The most “asked for” oak today!

Quercus rubra Red Oak

Zone (4-8) Height: 60’ Spread: 20’
A large, robust deciduous tree with a broad spreading, rounded crown. Drought tolerant. Opens in 5 years and will fill out from sucker at 30 years. Copper fall color.

Quercus rubra Red Oak

Zone (4-8) Height: 60’ Spread: 20’
A large, robust deciduous tree with a broad spreading, rounded crown. Drought tolerant. Opens in 5 years and will fill out from sucker at 30 years. Copper fall color.

Quercus rubra Red Oak

Zone (4-8) Height: 60’ Spread: 20’
A large, robust deciduous tree with a broad spreading, rounded crown. Drought tolerant. Opens in 5 years and will fill out from sucker at 30 years. Copper fall color.

Quercus rubra Red Oak

Zone (4-8) Height: 60’ Spread: 20’
A large, robust deciduous tree with a broad spreading, rounded crown. Drought tolerant. Opens in 5 years and will fill out from sucker at 30 years. Copper fall color.

Quercus rubra Red Oak

Zone (4-8) Height: 60’ Spread: 20’
A large, robust deciduous tree with a broad spreading, rounded crown. Drought tolerant. Opens in 5 years and will fill out from sucker at 30 years. Copper fall color.

Quercus rubra Red Oak

Zone (4-8) Height: 60’ Spread: 20’
A large, robust deciduous tree with a broad spreading, rounded crown. Drought tolerant. Opens in 5 years and will fill out from sucker at 30 years. Copper fall color.
Stewartia pseudocamellia

**GRL™**

**Japanese Stewartia**

Zone (6) Height: 20’ Spread: 30’

25.30

Attractive ornamental tree with white flowers and exfoliating bark, non fall color.

**Korean Stewartia**

Zone (6) Height: 20’ Spread: 30’

25.30

Upright character, leaves turn scarlet fall, white camellia like flowers in mid-spring. Outstanding exfoliating bark.

**Syringa japonica**

**Japanese Beachlill**

Zone (5) Height: 20’ Spread: 30’

20.90

An exceptional small tree. Slightly fragrant white bell-shaped flowers are produced in April and June. White fall color.

**Syringa meyi**

**Pallid**

Zone (4) Height: 4’ Spread: 0’

15.00 14.50 8.00 7.10 5.20 4.50 3.60

Lilac on a clump. 4” x 4” grafted on a standard. Very Fragrant, reddish purple blooms, long bloom period, fragrant, perfect patio plant.

**Syringa patula**

**Blue Bicol**

Zone (4b) Height: 6’ Spread: 0’

17.50 17.00 8.00 7.10 5.20 4.50 3.60

**Syringa Pokensinik - Peking Lilac**

**Great Wall**

Zone (2a) Height: 20’-22’ Spread: 12’-15’ Royalty: 3.50

29.50 34.80 32.00

Peking lilac with great form. Small ornamental tree with white flowers and dark glossy foliage. Cherry like exfoliating bark. Gold fall color.

**Syringa x Pendula**

Blooming - Dark Purple

Zone (5b) Height: 6’ Spread: 6’ Royalty: 3.15 FNE

31.30

Midnight blue blooms in rounded clusters that reopen regularly from spring until fall. The flowers begin as dark indigo-purple buds, opening to a brilliant medium blue bloom with a sweet fragrance.

**Styrax japonicus**

**GRL™**

**Zone (4b) Height: 4’ Spread: 6’ Royalty: 3.50**

25.30

Compsacred small tree with large creamy white flowers in early July. Deep green foliageturns yellow in fall. Relatively brown cherry like bark.

**Summer Snow**

Zone (5) Height: 20’ Spread: 13’ Royalty: 1.30

29.50 34.80 32.00 27.40 23.70 20.30 17.30 14.20 11.00

A new seedling selection of Syringa reticulata characterized by its consistency, vigorous growth and hardiness. Noted by Rock Kelly of Michiagan Nursery to grow faster at size as other varieties available.

**Taxodium distichum**

**GRL™**

**Zone (4-9) Height: 50’-70’ Spread: 20’-30’**

18.70

Upright deciduous conifer, leaves bright green in spring and copper to russet in fall. Prefers deep sandy soil, will grow in very wet or dry conditions.

**Shawnee Brave™ 'Mickelson'**

Zone (4-9) Height: 30’ Spread: 12’ Royalty: 0.80

25.30

Narrower and more dense growth than species, fall color bronze orange, excellent as a single specimen tree or group planting.

**Tilia americana - American Linden**

**GRL™**

**Zone (3-8) Height: 60’ Spread: 40’ Royalty: 0.75 New Size**

20.90

Symmetrical pyramidal form of American Linden from McKay Nursery. Very impressive as a mature tree.

**Tilia cordata - Little Leaf Linden**

**Greenspire**

Zone (4-11) Height: 40’ Spread: 30’ Royalty: 0.55

25.30 24.10 21.70 19.70 17.50 15.00

Most popular of the cordatas. Symmetrical pyramidal form that is easily maintained. Tolerant of harsh urban conditions. Fragrant bloom and yellow fall color.

**Tilia tomentosa - Silver Linden**

**'Redmond'**

Zone (4-7) Height: 50’ Spread: 30’ Royalty: 5.00

25.30 24.10 21.70 19.70 17.50 15.00

'Redmond' is big in every category: size, leaf size, mature size and fragrance. Big fragrance! You bet! Has tremendous impact fall foliage, and an adaptable to many soil and pH levels. It’s very drought tolerant. Give it room to grow.

**Tilia tomentosa - Silver Linden**

**Sterling**

Zone (4-7) Height: 50’ Spread: 30’ Royalty: 5.00

25.30 24.10 21.70 19.70 17.10

**Syringa reticulata - Tree Lilac**

**Reilig™**

**Zone (3-7) Height: 25’ Spread: 25’ Royalty: 0.35**

17.30 16.20 15.20 14.00 13.60

Ivory Silk® Syringa reticulata COPF 845240

Compact oval form with large creamy white flowers in early July. Deep green foliage turns yellow in fall. Relatively brown cherry like bark.

**Summer Storm™**

Zone (3-7) Height: 20’ Spread: 13’ Royalty: 1.30

29.50 34.80 32.00 27.40 23.70 20.30

A new seedling selection of Syringa reticulata characterized by its consistency, vigorous growth and hardiness. Noted by Rock Kelly of Michiagan Nursery to grow faster at size as other varieties available.

**Bloomerang® Dark Purple**

Zone (4b) Height: 20’ Spread: 15’ Royalty: 5.00

35.60

Midnight-blue blooms in rounded clusters that reappear regularly from spring until frost. The flowers begin as dark midnight-purple buds, opening to a brilliant lavender-blue bloom with a sweet fragrance.

**Bloomerang® Pink**

Zone (4b) Height: 20’ Spread: 15’ Royalty: 5.00

37.60

Petal-like flowers in spring, rounded clusters in fall. The flowers begin as dark pink buds, opening to a brilliant pink bloom with a sweet fragrance.

**Bloomerang® White**

Zone (4b) Height: 20’ Spread: 15’ Royalty: 5.00

35.60

Floral-like flowers in spring, rounded clusters in fall. The flowers begin as dark pink buds, opening to a brilliant pink bloom with a sweet fragrance.
Ulmus - Elm

Accabode™
Zone (4-8) Height: 30' Spread: 30' Spreading 40' Royalty: $.50
Vigorous, pyramidal, upright vase-shaped with excellent resistance to disease, pest and drought. Glossy dark green leaves and bright yellow fall color.

Alba™
Zone (4-8) Height: 70' Spread: 50' Spreading 80' Royalty: $.20
Upright vase-shaped shade tree, dark green foliage turns yellow in fall. Resistant to Dutch elm disease. Zones (4-8).

Bonsai™
Zone (5-9) Height: 5' Spread: 5' Spreading 12' PP11,246
A dwarf, pyramidal, upright tree with a dominant leader. Dark colored, exfoliating bark. Rich green foliage, yellow-orange in fall. Resistant to beetles and Dutch elm disease.

Discovery™
Zone (6-8) Height: 40' Spreading 60' Royalty: $.50 PP10,558
An upright, vase-shaped shade tree. Dark green, glossy leaves. Excellent resistance to disease, pest and drought. Glossy dark green leaves and bright yellow fall color.

Dynasty™
Zone (5) Height: 50' Spread: 20' Spreading 30' Royalty: $.50

Jefferson™
Zone (3-9) Height: 75'-90' Spread: 50'-60' Spreading 80'-100' Royalty: $1.00
An American Elm that is highly resistant to Dutch elm disease, but is distinguished by its low seed production. Highly resistant to Dutch elm disease and very hardy.

New Horizon™
Zone (3-9) Height: 80' Spread: 50' Spreading 60' Royalty: $.60
Upright, vase-shaped shade tree. Dark green summer foliage turns yellow in fall, then red. Very disease resistant American Elm, some nearly 100 years old in New Jersey. Fast growing, cold hardy, large, vase-shaped tree with upright arching branches. Extremely vigorous; long lived (300 years). The ‘best’ tree for urban conditions.

Village Green™
Zone (3) Height: 7' Spread: 12' Royalty: $.60
Shiny, dark green foliage. Flat creamy white flowers in spring. In fall, berries first appear bright red then change to glossy black. Leathery, wrinkled, dark green leaves.

Zelkova serrata - Japanese Zelkova

Chicagoliner™
Zone (3-9) Height: 10' Spread: 15' Spreading 20' Royalty: $.20
A U.S. National Arboretum intro. This variety was selected for its tolerance to Dutch elm disease. Zones (4-9).

Green Vane™
Zone (5-9) Height: 40' Spread: 30' Spreading 60' Royalty: $.50
A fast-growing, cold hardy, broad, vase-shaped tree with upright arching branches. Tolerant to city conditions. Orange-brown to bronze-red fall color.

Japanese Columnar Zelkova

Shasta' Viburnum plicatum f. tomentosum
Zone (5-8) Height: 8'-10' Spread: 8'-10' Royalty: $.20
A showy shrub; horizontal spreader. Large white flower clusters in late spring. Red fruit matures to black. Dark green foliage turns purple-red in fall.

Zelkova serrata - Japanese Zelkova

New Horizon™
Zone (3) Height: 80' Spread: 50' Spreading 60' Royalty: $.60
Upright, spreading elm. Very disease resistant to Dutch elm disease. Zones (4-10).

Zelkova serrata - Japanese Zelkova

Green Vane™
Zone (5-8) Height: 50' Spread: 40' Spreading 60' Royalty: $.50
A fast-growing, cold hardy, broad, vase-shaped tree with upright arching branches. Tolerant to city conditions. Orange-brown to bronze-red fall color.

Japanese Columnar Zelkova

Village Green™
Zone (5) Height: 7' Spread: 12' Royalty: $.60
A U.S. National Arboretum intro. This variety was selected for its tolerance to Dutch elm disease. Zones (4-10).

Village Green™
Zone (5) Height: 8' Spread: 12' Royalty: $.50
Broadly vase-shaped, vigorous growth with a smooth, straight trunk and a rusty red bark. Tolerant to city conditions, prefers loamy, well-drained soil.

Zelkova serrata - Japanese Zelkova

Green Vane™
Zone (5-9) Height: 80' Spread: 50' Spreading 60' Royalty: $.50
A fast-growing, cold hardy, broad, vase-shaped tree with upright arching branches. Tolerant to city conditions. Orange-brown to bronze-red fall color.

Japanese Columnar Zelkova

Village Green™
Zone (5-7) Height: 10' Spread: 10' Royalty: $.20
A U.S. National Arboretum intro. This variety was selected for its resistance to disease, pest and drought. Resistant to Dutch elm disease. Zones (4-10).

Village Green™
Zone (5-7) Height: 10' Spread: 10' Royalty: $.20
A U.S. National Arboretum intro. This variety was selected for its resistance to disease, pest and drought. Resistant to Dutch elm disease. Zones (4-10).

Zelkova serrata - Japanese Zelkova

Green Vane™
Zone (5-8) Height: 60' Spread: 40' Spreading 60' Royalty: $.50
A fast-growing, cold hardy, broad, vase-shaped tree with upright arching branches. Tolerant to city conditions. Orange-brown to bronze-red fall color.

Japanese Columnar Zelkova

Village Green™
Zone (5-7) Height: 10' Spread: 10' Royalty: $.20
A U.S. National Arboretum intro. This variety was selected for its resistance to disease, pest and drought. Resistant to Dutch elm disease. Zones (4-10).
Robinson Nursery Directions

Robinson Nursery is located approximately one hour from Portland International Airport.
- Follow I-84 west to Portland.
- Take I-5 South to exit 294 Tigard.
- Follow 99W southwest for 27 miles to Hwy 18.
- Follow Hwy 18 west for 9 miles and take the second McMinnville exit.
- Turn left on Hwy 99 and drive for 2 miles.
- Turn right on Trestleview Lane.

If you are in the Portland area, we encourage you to visit us. Our hours are 8:00 a.m. to 4:00 p.m. Monday through Friday. If these hours are inconvenient, please call and we would be happy to arrange a tour that fits your schedule.

Meet the New Generation of Owners

Chris Robinson has been employed full time by Robinson Nursery for 10 years. At an early age, he worked part time in a variety of positions throughout the company and grew, so did his love for the nursery. Chris is passionate about Growing Your Expectations. Under his management, Robinson Nursery has implemented continuous improvement strategies and employee education practices to achieve the highest efficiency and the least waste; never losing sight of the Robinson Nursery mission to provide the highest quality product at an affordable price. Chris is active throughout the nursery industry. He was named the 2017 OAN New Nursery Professional of the Year. Chris is the president of the Sunset Chapter; awarded the 2017 OAN Chapter of the Year. Chris and his wife, Marie, have three wonderful children; Hunter (6), Fiona (3), and Melody (5 months).

Josh Robinson is Manager of the Robinson Nursery Sales Team. A team, he knows to be the best team of sales representatives in the industry. Their combined knowledge, wisdom, and passion offer our customers a competitive advantage. Josh believes in having a bias for action. If it is important to our customers, he immediately addresses the matter with his utmost attention and the greatest of care.

Robinson Nursery News

Over the years, he has made major contributions to the nursery industry. Josh received the New Nursery Professional of the Year 2012 and is now the OAN Secretary of the Executive Committee. A champion for the younger generation, he is passionate about connecting horticultural professionals with new and interesting people and providing ways to help nurture their passion for the industry that we all love. Josh and his wife, Ashley, have two awesome sons; Kaden (10) and Thomas (2). They are expecting their third son August 2018.

Our Product Line

Descriptions

Branched (br) are typically two year top trees that are well branched. These trees are perfect for the container grower that wants quick turns or the field grower that is looking to reduce developmental labor costs.

Light Branched (lt) Similar to branched trees, except they have less or shorter branches. These plants will take more time to develop the canopy and growers looking for larger caliper trees will line out.

Undercut (uc) are trees root pruned in our fields with special equipment. An undercut tree can be root pruned 1 or sometimes 2 times. Trees are undercut to control sizing to customer specification. The process of undercutting also increases the transplant ability by reducing the number of branches. These trees are perfect for the container grower that wants to line out before planting. This process allows us to recycle the plastic containers, helping the environment while reducing shipping charges.

Weeping Trees have pendulous branches and are graded differently than our typical bareroot plants. They are graded by heavy, #1, and #1 light. Heavy are ideal for planting into containers or the field growing looking for a more developed head. The primary difference between heavys and #1 are the caliper. A #1 light is a good choice for the grower that has more or shorter branches. These plants will take more time to develop the canopy and growers looking for larger caliper trees will line out.

Whips (wh) are typically one year top trees. Dependant on the variety, these trees will range from light or minimal branching to no branching at all.

Grow Ready Liners™ (GRL™) All our container trees are grown in air root pruning containers. These containers are specifically designed to create a more fibrous root system allowing you to plant difficult to transplant varieties with confidence. Air pruning roots as they grow eliminates circling roots that may cause the tree to girdle later in life. Mulching is used to reduce the need for herbicide which has provided us with accelerated root growth, as well as enhanced tree caliper. Plants are shipped in biodegradable mesh that is easily removed before planting. This process allows us to recycle the plastic containers, helping the environment while reducing shipping charges.

#3 GRL™ Comparable to a 5-6' bareroot whip. The root system on a #3 GRL™ is far superior to a bareroot plant. These plants are well rooted and developed in an air root pruning container.

#3 GRL™ Premium is comparable to a 5-6' branched tree. These have the same great root system as the #3 GRL™ but are typically a year older. This is one of the best valued products in our line.

#7 GRL™ is comparable to a 6' branched tree. They have a #7 gallon root system that has been air pruned allowing larger, more difficult varieties to transplant with ease and hit the ground running.

In our catalog, varieties that offer the GRL™ option display the GRL™ logo at the end of each row. The specific sizes offered in GRL™ are marked as GRL™ in the size column. If it is not specified GRL™ in it’s size name, it is a bareroot plant. Much like the catalog, our availability distinguishes GRL™ from bareroot by having a GRL™ in it’s size name.

How netting all our container plants is a win-win for everyone. Using netting instead of shipping in containers allows us to fit 10% more product onto a truck. A netted plant is also much lighter than a plant in a container. The easy to remove netting saves you the time and hassle of removing and recycling those pesky containers. Netting is better for the environment and it is the best value for you!

Frequently Asked Questions

How long have you been in business?
Robinson Nursery was founded by Rick and Roxanne Robinson, part time, in 1979 and began operating full time in the early 1990’s.

What is the Robinson Nursery succession plan?
Brothers, Chris Robinson and Josh Robinson, have begun to take over ownership of the company and will continue to do so over the next year.

What are your primary products?
90 percent of our nursery stock is ornamental and shade trees, 10 percent are shrubs; of those plants 60 percent are bareroot and 40 percent are container plants.

How many acres are in production?
650 acres. 400 acres are nursery stock; 14 of those acres are greenhouses. The additional 250 acres are vegetable crops for seed, corn and wheat.

Who are your customers?
We sell to the contiguous United States and Canada. The majority of our customers are located in the eastern half of the United States. We sell to B and B growers, container growers, re-wholesalers, online retailers, and garden centers. Our customers field plant Robinson Nursery liners as well as pot the liners into containers.

How do I tell what is a container liner in the catalog or availability?
In our catalog, varieties that offer the GRL™ option display the GRL™ logo at the end of each row. The specific sizes offered in GRL™ are marked as GRL™ in the size column. If it is not specified GRL™ in it’s size name, it is a bareroot plant. Much like the catalog, our availability distinguishes GRL™ from bareroot by having a GRL™ in it’s size name.

How do you ship your product?
We use trucking brokers nationwide to find the best, most affordable, refrigerated trucks and rail cars. We have a minimum order of $1,500 to make these logistics possible.

Where do you source your plant material from?
Our in house propagation department propagates 95% of what we plant. The other 5% of plant material comes from trusted local suppliers.

SWEATING NURSERY STOCK

Sweating is a process used to force bud break and activate growth in dormant nursery stock. The goal is to raise the temperature and humidity surrounding the dormant tree. A temperature of 50 to 60º F is optimum. We suggest sweating the following genera: Carpinus, carpinus, Crataegus, Ceanothus, Nyssa and Styrax. Some suggest that this process also be used on Acer, Amanlechanche, Betula, Fraxinus, Gleditsia, Liquidambar, Malus, Ostrya, Pinnus, Stewardia, Syringa and Tilia. If you have had trouble with any of these trees in the past, this simple step may save you headaches. The process is fairly easy. It is best done out of direct sunlight so that excessive temperatures do not build up. Place a layer of moistened burlap, straw or sawdust on the ground. Soak the tree roots in water. Shake off excess moisture and lay the trees down on the moist media. You may wish to spray the trees with a mold inhibiting spray. Once a tree has been planted and settled in, the main anchoring roots should only be 2 or 3 inches below the soil level. While it is better to plant a tree too high than too low, roots exposed to the sun will succumb.

ROOT PRUNING

Root Pruning is the cores house of energy during the dormant season. Most of the energy used by the tree in the first six weeks of new growth in the spring comes from this stored energy. We suggest that in preparing your bareroot tree for planting, you remove as little root as possible. Prune any broken roots back to solid wood, and make a fresh tip cut at the end of large roots. The more energy the tree has available, the sooner it will reestablish itself, and the faster it will grow to a sellable size.
